Research and Practice in Assessing Second Language Writing Multilingual Matters

Editors and contributors pursue the ambitious goal of including within WAC theory, research, and practice the differing perspectives, educational experiences, and voices of second-language writers. The chapters within this collection not only report new research but also share a wealth of pedagogical, curricular, and programmatic practices relevant to second-language writers. Representing a range of institutional perspectives—including those of students and faculty at public universities, community colleges, liberal arts colleges, and English-language schools—and a diverse set of geographical and cultural contexts, the editors and contributors report on work taking place in the United States, Asia, Europe, and the Middle East.

Accuplacer Study Guide University of Michigan Press

Written specifically for graduate students studying to become teachers of composition, this text provides well-documented, specific information about planning curricula, developing syllabi for each level of language proficiency in an ASL writing program, and day-to-day lesson plans for all levels of ASL writing classes.

The flipped classroom method, particularly when used with digital video, has recently attracted many supporters within the education field. Now more than ever, language arts educators can benefit tremendously from incorporating flipped classroom techniques into their curriculum. Applying the Flipped Classroom Model to English Language Arts Education provides a comprehensive examination of the latest strategies for incorporating the flipped classroom technique into English language courses. Highlighting innovative practices and applications in many areas, such as curriculum development, digital tools, and instructional design, this book is an ideal reference source for academicians,

educators, students, practitioners, and researchers who are interested in the advancement of the flipped classroom model in curriculums.

**Ready-to-Use Strategies, Tools, and Activities for Teaching English Language Learners of All Levels** Routledge

In recent years, the number of nonnative speakers of English in colleges and universities in North America has increased dramatically. As a result, more and more writing teachers have found themselves working with these English as a Second Language (ESL) students in writing classes that are designed primarily with monolingual, native-English-speaking students in mind. Since the majority of institutions require these students to enroll in writing courses at all levels, it is becoming increasingly important for all writing teachers to be aware of the presence and special linguistic and cultural needs of ESL writers. This increase in the ESL population has, over the last 40 years, been paralleled by a similar growth in research on ESL writing and writing instruction--research that writing teachers need to be familiar with in order to work effectively with ESL writers in writing classrooms of all levels and types. Until recently, however, this body of knowledge has not been very accessible to writing teachers and researchers who do not specialize in second language research and instruction. This volume is an attempt to remedy this problem by providing a sense of how ESL writing scholarship has evolved over the last four decades. It brings together 15 articles that address various issues in second language writing in general and ESL writing in particular. In selecting articles for inclusion, the editors tried to take a principled approach. The articles included in this volume have been chosen from a large database of publications in second language writing. The editors looked for works that mirrored the state of the art when they were published and made a conscious effort to represent a wide variety of perspectives, contributions, and issues in the field. To provide a sense of the

evolution of the field, this collection is arranged in chronological order.

Teaching and Researching Chinese EFL/ESL Learners in Higher Education Routledge

This practical, comprehensive guide to teaching writing offers English teachers a variety of new, classroom-tested instructional activities, workshops, lesson plans, journal entries, teaching strategies, and creative assignments to use in their classrooms.

Resources in Education Macmillan

Exploring research and pedagogy on second language writing, this volume focuses on issues concerning policy decisions affecting foreign students.

Language Policies and (Dis)Citizenship Cambridge University Press

This text integrates the theory and practice of learner-based assessment. Written in response to two recent movements in language teaching--learner-centered teaching and a renewed interest in authenticity in language testing--it examines the relationship between the language learner and language assessment processes, and promotes approaches to assessment that involve the learner in the testing process. Particular attention is given to issues of reliability and validity. Grounded in current pedagogical applications of authentic assessment measures, this volume is intended for and eminently accessible to classroom teachers and program directors looking for ways to include their students in the evaluation process, graduate students, and professional language testers seeking authenticity in assessment and desiring to create more interactive evaluation tools.

Understanding Challenges, Providing Support Greenwood Publishing Group

The second edition of this bestselling text, *Teaching ESL/EFL Reading and Writing*, is a fully updated and expanded guide for teaching learners at all levels of proficiency how to develop their reading and writing skills and fluency. Practical and accessible, this book covers a diverse array of language teaching techniques suitable for all contexts. Updated with cutting-edge research and theory, the second edition is an essential and engaging text. Key insights and suggestions are organised around four strands - meaning-focused input, meaning-focused output, language-focused learning, and fluency development - to allow teachers to design and present a balanced programme for their students. Bringing together research and theory in applied linguistics and education, the text includes useful examples and practical strategies and features new topics related to technology, assessment, and genre. The second edition includes

new tasks and further reading sections in every chapter. *Teaching ESL/EFL Reading and Writing* is designed for practising and pre-service teachers of all levels, and is ideal for certificate, diploma, masters, and doctoral courses in English as a second or foreign language.

**Teaching ESL Composition** Routledge

China has attached great importance to teaching students to become proficient users of English. Yet, despite a plethora of studies and practice on Chinese ESL/EFL (English as a second/foreign language) learners, the large student population, its complicated composition and the complex nature of second and foreign language learning have rendered it difficult to offer a panoramic view on ESL/EFL teaching and learning of Chinese learners. This book provides a new and up-to-date perspective on the teaching and learning of Chinese ESL/EFL learners. The book collects 15 case studies, falling into two parts--Curriculum Development and Teaching Practice and Skills-Based Research. The collected studies deploy qualitative, quantitative or mixed methods to explore patterns, features, developments and causes and effects of a variety of issues in the sphere of ESL/EFL teaching and learning. Moreover, the cases offer insights that are relevant beyond the mainland Chinese context such as Hong Kong, Macau, Britain and Australia. Students and scholars of TESOL and applied linguistics will be interested in this title.

*Complete CAE Student's Book Pack (Student's Book with Answers with CD-ROM and Class Audio CDs (3))* Cambridge University Press

In keeping with the spirit of the first edition, *Teaching ESL Composition: Purpose, Process, and Practice, Second Edition* presents pedagogical approaches to the teaching of ESL composition in the framework of current theoretical perspectives on second language writing processes, practices, and writers. The text as a whole moves from general themes to specific pedagogical concerns. A primary goal is to offer a synthesis of theory and practice in a rapidly evolving community of scholars and professionals. The focus is on providing apprentice teachers with practice activities that can be used to develop the complex skills involved in teaching second language writing. Although all topics are firmly grounded in reviews of relevant research, a distinguishing feature of this text is its array of hands-on, practical examples, materials, and tasks, which are presented in figures and in the main text. The synthesis of theory and research in a form that is accessible to preservice and in-service teachers enables readers to see the relevance of the field's knowledge base to their own present or future classroom settings and student

writers. Each chapter includes: \*Questions for Reflection--pre-reading questions that invite readers to consider their own prior experiences as students and writers and to anticipate how these insights might inform their own teaching practice; \*Reflection and Review--follow-up questions that ask readers to examine and evaluate the theoretical information and practical suggestions provided in the main discussion; and \*Application Activities--a range of hands-on practical exercises, such as evaluating and synthesizing published research, developing lesson plans, designing classroom activities, executing classroom tasks, writing commentary on sample student papers, and assessing student writing. The dual emphasis on theory and practice makes this text appropriate as a primary or supplementary text in courses focusing on second language writing theory, as well as practicum courses that emphasize or include second language writing instruction or literacy instruction more generally. New in the Second Edition: \*updated research summaries consider new work that has appeared since publication of the first edition; \*revised chapter on research and practice in the use of computers in second language writing courses covers recent developments; \*streamlined number and type of Application Activities focus on hands-on practice exercises and critical analysis of primary research; and \*revisions throughout reflect the authors' own experiences with the text and reviewers' suggestions for improving the text.

**Applying the Flipped Classroom Model to English Language Arts Education** Houghton Mifflin College Division

This volume synthesizes and critically analyzes the literature on response to the writing of second language students, and discusses the implications of the research for teaching practice in the areas of written and oral teacher commentary on student writing, error correction, and facilitation of peer response. The book features numerous examples of student texts and teacher commentary, as well as figures and appendices that summarize research findings and present sample lessons and other teaching materials. It is thus simultaneously comprehensive in its approach to the existing research and highly practical in showing current and future teachers how this material applies to their everyday endeavors of responding to student writing and teaching composition classes. Response to student writing--whether it takes the form of teachers' written feedback on content, error correction, teacher-student conferences, or peer response--is an extremely important component of teaching second language writing. Probably no single activity takes more teacher time and energy. Response to Student Writing is a valuable theoretical and practical resource for those involved in this crucial work,

including L2 composition researchers, in-service and preservice teachers of ESOL/EFL writers, and teacher educators preparing graduate students for the teaching of writing.

*61 Cooperative Learning Activities in ESL* Cambridge University Press  
ESL Readers and Writers in Higher Education describes the challenges ESL students in U.S. postsecondary institutions face when studying in a second language, and offers suggestions for how teachers, advisors, tutors, and institutions might provide support that meets the reading and writing needs of this very important student population. Because the ESL profession as a whole, including what professionals are doing in the classroom, sits under the umbrella of an institutional response to a language-related challenge, some solutions aimed at helping students achieve optimal proficiency lie outside of the classroom. As such, this book is based on the assertion that language development support is not the sole responsibility of language teachers. Everyone on campuses that hosts ESL students bears some responsibility for these students' language development. Chapters are therefore, intentionally adapted to appeal to a wide variety of readers from classroom teachers, and teachers in training, to admissions officers, academic advisors, and international student advisors.

*Landmark Essays on ESL Writing* University of Michigan Press  
In this second edition of the best-selling Second Language Research, Alison Mackey and Sue Gass continue to guide students step-by-step through conducting the second language research process with a clear and comprehensive overview of the core issues in second language research. Supported by a wealth of data examples from actual studies, the book examines questions of what is meant by research and what defines good research questions, covering such topics as basic research principles and data collection methods, designing a quantitative research study, and concluding and reporting research findings. The second edition includes a new chapter on mixed-methods, new "time to think" and "time to do" text boxes throughout, and updates to reflect the latest research and literature. Supplementary materials, including an extensive glossary and appendices of forms and documents that students can use in conducting their own studies, serve as useful reference tools, with suggestions on how to get research published reemphasizing the book's practical how-to approach. Second Language Research, Second Edition is the ideal resource for understanding the second language research process for graduate students in Second Language Acquisition and Applied Linguistics.

*Methods, Strategies, and Activities to Engage Students* Routledge

Educators continue to strive for advanced teaching methods to bridge the gap between native and non-native English speaking students. Lessons on written forms of communication continue to be a challenge recognized by educators who wish to improve student comprehension and overall ability to write clearly and expressively. Methodologies for Effective Writing Instruction in EFL and ESL Classrooms brings together research and practices for successful written communication teaching among students of diverse linguistic backgrounds. With technological advancements and resources, educators are able to implement new tools into their lesson plans for the benefit of their students. This

publication is an essential reference source for professionals, educators, and researchers interested in techniques and practices for written communication in English language teaching geared towards non-native English speaking students.

*Developments in Teaching and Language Corpora* IGI Global

This publication highlights the need for test developers to provide clear explanations of the ability constructs which underpin tests offered in the public domain. An explanation is increasingly required, if the validity of test score interpretation and use are to be supported both logically, and with empirical evidence. The book demonstrates the application of a comprehensive test validation framework which adopts a socio-cognitive perspective. The framework embraces six core components which reflect the practical nature and quality of an actual testing event. It examines Cambridge ESOL writing tasks from the following perspectives: Test Taker, Cognitive Validity, Context Validity, Scoring Validity, Criterion-related Validity and Consequential Validity. The authors show how an understanding and analysis of the framework and its components in relation to specific writing tests can assist test developers to operationalise their tests more effectively, especially in relation to criterial distinctions across test levels.

*Academic Writing in a Second Language* Macmillan

This book shows how formal, non-formal, and informal education play important roles in the shaping of bilingual minds. The contributions gathered here examine how societies influence language education, taking into account different perspectives, as well as foreign language education in schools, native bilingualism, and societal stances towards bilingualism.
