Environmental Cooperation In Southeast Asia

One of the most challenging environmental threats to the ten countries of the Association of Southeast Asian Nations (ASEAN) has been the haze, the sickening and deadly cloud of smoky pollution caused by widespread burning of land and forests in Indonesia.

Environmental Issues in Southeast

environmental damage poses a region-wide threat, not just a local or national threat. Southeast Asia has a longer history of subregional environmental cooperation than other subregions in Asia and the Pacific. This has a great deal to do with its geopolitical picture. In the 1960s, the subregion was divided by ideological conflict and war.
