Curriculum compacting is one of the most well-researched and commonly used ways of differentiating instruction to challenge advanced learners. This practical and inexpensive method of differentiating both content and instruction enables classroom teachers to streamline the regular curriculum, ensure students' mastery of basic skills, and provide time for stimulating

enrichment and acceleration activities. With information on the history and rationale of curriculum compacting as well as successful implementation strategies and multiple case studies, the second edition of Curriculum Compacting introduces the strategies that teachers need to understand to implement this differentiation strategy for high-potential, highly motivated, and academically talented and gifted students. 2017 NAGC Book of the Year Award Winner

pedagogy of the last decade. Issues of knowledge are explored as the authors consider how an integration of popular culture and cultural studies into the lesson plan can enrich and re-invigorate the learning experience. These essays, ranging widely in topic and educational level, are based in theory but are practice-oriented. In translating this theory, the contributors provide educators with techniques which will inform rather than oppress classroom skills.
