enVision packs a unique one-two punch. Lessons start with Problem-Based Learning (PBL), where students must think critically about a real-world math problem, evaluate options, collaborate, and

present solutions. This is followed by Visual Learning to solidify the underlying math concepts. It ' s the best way to help kids better understand math ideas.

This follows 4th grade
common core very
well, as well as
introduced students to
5th grade concepts at
the end of the book. I
use it to introduce
concepts and math
vocabulary. It has a lot
of great higher order
thinking questions,
but not a lot of
practice problems.
You have to buy the
homework book
separately, which does
have more practice ...
