David Busch's Canon EOS R5/R6 Guide to Digital Photography Good Press
This book explains how to take surreptitious photographs and record video of people and property in a safe and effective manner while producing excellent results. It is the most comprehensive text on clandestine photography available. It takes the reader through conventional as well as the most sophisticated clandestine photography methods in practice today, and it covers the use of all types of equipment ranging from off-the-shelf to the most high-tech equipment available. The ultra-long-range night vision photography methods discussed in this book were devised by the authors and only exist here. Readers will discover esoteric techniques for photographically recording recognizable

human and vehicle plate images from distances of over a mile in both daylight and night conditions. Myriad methods for secretly photographing people and property under diverse and difficult conditions are presented. Readers will discover innovative applications of combinations of old and new photographic-related technologies—some combined in unexpected ways that produce surprising results. It is written and extremely well illustrated in an easy to understand style for all photographers regardless of skill level. The book is appropriate for anyone in law enforcement, military operations, and private investigation. It will also benefit government surveillance specialists and those responsible for detecting and thwarting manual clandestine photography.

A powerful portfolio involves so much more than just a strong grasp of the technical aspects of photography – it's a complex mix of style, techniques, and intriguing ideas. Many photographers struggle to achieve a high-impact portfolio, feeling that they lack the creative spark to invigorate them and move their work forward. Creative 52 is that spark – and your guide to a new and more creative portfolio in just one year! A remedy for that “average” portfolio, this collection of innovative projects will help portrait, wedding, and fashion

photographers build a portfolio that draws the attention of editors and clients – leaving the competition behind. While other how-to books often use bland imagery simply to prove a technical point, and many fine art books are filled with beautiful imagery but contain minimal (if any) educational insights to help working photographers, this book blends both: inspiration and knowledge that you can use to create images that attract potential clients. Divided into three parts – concept, technique, and post-processing – author Lindsay Adler's 52 challenges each contain a description of the project, potential inspiration and suggestions of other artists to check out, and her own unique solution to the challenge – all to push you beyond your comfort zone to explore new ideas and approaches to your work. Includes a year's worth of weekly projects that motivate you to

experiment with new concepts, techniques, and software tools like Adobe Photoshop to achieve more eye-catching images Offers the cure for “ expected ” imagery, showing how to produce memorable photographs that are distinct from the competition, enabling you to reach new clients Empowers you with the encouragement and expertise necessary to create spectacular images Canon EOS 6D Mark II Users Guide Rocky Nook, Inc.

"From how many frames you need to shoot per second to capture that WOW moment to where to focus on a bird with a big beak to get the best depth of field, this book has it all for the wildlife photographer. It is an impressive mix of technology with just plain good advice

for image-taking, and they discuss each point specifically for shooting wildlife, because it is a totally unique type of photography. The lighting and shutter speed for a macro flower shot is not the same that you'd need for a bird in flight or a kangaroo jumping across a field. Mix together this fantastic info with the many years of experience that the Gerlachs have shooting and teaching and the absolutely jaw-dropping images and you really do have a perfect storm for a book"--
