Following on the release of *The Digital Negative: Raw Image Processing in Lightroom, Camera Raw, and Photoshop*, the definitive and bestselling guide to integrated raw image processing, renowned photographer, educator, and author Jeff Schewe presents a targeted book on digital printing in Lightroom and Photoshop, which teaches expert techniques for optimal output and fine-art reproduction using today's technologies. *The Digital Print* picks up where first book leaves off, taking the already perfected images from *The Digital Negative* and preparing them for printing and other forms of output. Students will learn techniques for fine-art

printing in house or sending out to a photo lab, as well as preparing images for multimedia and mobile destinations and Print on Demand (POD) books. This is the second in a two-book series that pays homage to Ansel Adams' seminal book series *The Camera, The Negative, and The Print*. Each book stands alone, but the combination of the two tells the entire story from camera to print. These books are not version-specific and, thus, evergreen. larger role in our lives today than ever before. For example, LANs provide us with the capability to realize automated banking services, with instant credit checking and numerous other diverse access and manipulation services. Users and developers of LAN products must understand the architecture of the hardware and software mechanisms to effectively design and use such systems. Most gains in LAN productivity will come from

future software developments in systems management and applications. This book provides an introduction to the technology associated with Local Area Networks, emphasizing software aspects which have been secondary considerations to hardware in most existing texts. The book also provides a review of the technology needed to realize full service software products, such as computer-aided design and manufacturing

systems, large publication systems, and integrated data service networks, and includes an exhaustive review of the products available today. PC Mag InfoWorld is targeted to Senior IT professionals.
