Anthony Jay shows you how the new science of management is a continuation of the old art of government. By looking at your own corporate organization in a political/historical context, you can fully understand its power structure - what Machiavelli wrote about statecraft in the sixteenth century holds true for business and management in the late twentieth century. Applying Machiavellian precepts to such modern corporations as General Motors, Apple Computer, and Microsoft, Jay discovers self-contained states with courtiers and diplomats, orthodoxy and heresy lurking under their smooth corporate veneers. Though humorous, Jay's message is clear. To understand the workings of corporation or states, you must understand the nature and behavior of their leaders. And that

hasn't changed since the Middle Ages.

Stolen Treasure is a book almost 70 years in the writing! Written over the decades since 1946, this collection of observations, quotes, proverbs, witticisms and rules for living have guided the author since his youth growing up in India, through his time in the Indian Navy, and for the bulk of his life since moving to Ireland in 1960. Now in his mid-80s, the author presents a lifetime of humour and words of wisdom for a happy life in this book. A true treasure collection of one-line gems and snip-bits of life's experiences, the book presents an insight into the observations of life over the author's lifetime that so many of us experience but never document. At first, observations from an idealistic young man are presented. This is followed by wisdom learned in early adulthood and gathered as an Officer with the Indian Navy. The observations continue from a happy lifetime in Ireland with a large focus on what the author learned about life as a husband and father, as well as engineer and lecturer, to retiree. These have been collected over the years as the author has experienced them in life or overheard them in social occasions, and carefully recorded by hand. In the decades before the internet and social media, these were the original status updates that tell a story of how life and perception of what matters has changed over almost 70 years. An intriguing read for every person of all ages and all interests.

On the northern slope of the island of Serendipity is a small, wonderful kingdom called the Land of Later. In this kingdom there lived a young, beautiful princess who everyone simply called Princess. The castle was governed by the king's simple rules. One of those rules was that when you woke in the morning, you cleaned your room and made your bed. Princess hated rules. Most of all, she hated doing anything at any time unless it was much, much later. This morning, as on others, she awoke, got dressed, and went outside and took a walk instead of cleaning her room. Princess walked into the forest near the castle. "I should start back before I get lost," she whispered to a bunny on the path. Then she laughed, "I will go back but just, just a little later!" It was on the journey that Princess met a unicorn called Morgan. And it was on this journey, with the help of Morgan, that she learned that doing things now is always much better than later.

"This life is a gift from God. He gave us life everlasting to fulfill our calling. No one has the authority to tell us on how to live our life. Live your life from your heart and pay attention to your

intuition. Don't be afraid to make mistakes, fall on your face, or look foolish in front of people. We are here to be the best we can be with what we have. Don't give up on yourself so soon. As we mature into who we are becoming... The change will be everlasting. Give yourself permission to finish your goals. The main thing is to never give up on yourself. Once we do that, life gives up on us. I hope that my story will help you see your life differently. This path was not easy for me to walk and share my deepest secret with you. I am thankful that my journey was not in vain, as I now pass the baton to you so you can run and win your race. With my deepest gratitude and love for humanity I wish you abundant blessings. May you start your journey today to awaken to the brand new you Namaste."

These are not mere dreams and visions: these are a calling. Six people. Five mind-numbing visions. Four ancient and mysterious artifacts. Two exotic locations. And one greedy man who will stop at nothing, not even murder, to achieve his goal. Rev. Adam Bridger and his wife, Dr. Rachel Tremaine are once again in the center of an adventure not of their making. And joining them are four total strangers who, along with Rachel, have seen visions that most mortals can't imagine. They have been called on a mission that will forever change the world--if they survive.
