"A great American tale told with a deft historical eye, painstaking analysis, and a supple clarity of writing." —Jean Baker "My husband considered you a dear friend," Mary Todd Lincoln wrote to Frederick Douglass in the weeks after Lincoln's assassination. The frontier lawyer and the former slave, the cautious politician and the fiery reformer, the President and the most famous black man in America—their lives traced different paths that finally met in the bloody landscape of secession, Civil War, and emancipation. Opponents at first, they gradually became allies, each influenced by and attracted to the other. Their three meetings in the White House signaled a profound shift in the direction of the Civil War, and in the fate of the United States. James Oakes has written a masterful narrative history, bringing two iconic figures to life and shedding new light on the central issues of slavery, race, and equality in Civil War America.

Feeling limited by circumstances, substances, or behaviors often leads to the simple, yet profound question, "Is this all there is?" This question is an opportunity to rediscover one's truth and live life more fully and authentically. Spirit Recovery Medicine Bag offers readers a path to finding their personal answer to this question in an engaging two-part format. In Part One, readers will join Lee McCormick as he reflects on his personal journey of recovery and transformation—a journey that initiated him into a life of helping others recover their own sense of self and purpose. Part Two is a medicine bag of healing practices designed to guide readers in developing self-awareness and awakening their sense of power—specifically the power of choice rooted in personal values and commitment to living those values. Covering a variety of topics addressing spirituality, awareness, and consciousness, the authors pose questions for reflection and self-investigation along the way. Spirit Recovery Medicine Bag is not a negation of Twelve-Step recovery, but a tool for expanding awareness and increasing involvement regardless of the path one is walking. In Twelve-Step language, it builds

on Step 12's direction to practice these principles in all one's affairs. The authors believe that the inner journey to one's truth and the creative expression of that truth make for a good definition of spirituality, and they offer readers a very real message of the possibility of living "happy, joyous, and free" through spirit recovery.

This book explains how and why information literacy can help to foster critical thinking and discerning attitudes, enabling citizens to play an informed role in society and its democratic processes. In early 21st century societies, individuals and organisations are deluged with information, particularly online information. Much of this is useful, valuable or enriching. But a lot of it is of dubious quality and provenance, if not downright dangerous.

Misinformation forms part of the mix. The ability to get the most out of the information flow, finding, interpreting and using it, and particularly developing

a critical mindset towards it, requires skills, know-how, judgement and confidence – such is the premise of information literacy. This is true for many aspects of human endeavour, including education, work, health and self-enrichment. It is notably true also for acquiring an understanding of the wider world, for reaching informed views, for recognising bias and misinformation, and thereby for playing a part as active citizens, in democratic life and society. This ground-breaking and uniquely multi-disciplinary book explores how information literacy can contribute to fostering attitudes, habits and practices that underpin an informed citizenry. The 13 chapters each come from a particular perspective and are authored by international experts representing a range of disciplines: information literacy itself, but also political science, pedagogy, information science, psychology. Informed Societies: Why Information literacy matters for citizenship, participation and democracy covers: - why information literacy and informed citizens matter for healthy, democratic societies - information literacy ' s relationship with political science - information literacy ' s relationship with human rights - how information literacy can help foster citizenship, participation, empowerment and civic engagement in different contexts: school students, refugees, older people and in wider society - information literacy as a means to counter misinformation and fake news - the challenges of addressing information literacy as part of national public policy. The book will be essential reading for librarians and information professionals working in public libraries, schools, higher education institutions and public bodies; knowledge and information managers in all sectors and student of library and information science students, especially those at postgraduate/Masters level who are planning dissertations. Because of the topicality and political urgency of the issues covered, the book will also be of interest to students of political science, psychology, education and media studies/journalism; policy-makers in the public, commercial and not-for-

profit sectors and politicians implications of information use and information/digital literacy. Weedopedia Royal Society of Chemistry Lord Ivan de Greystoke - Don't let my fancy title fool you because I'm a bad boy. I've always been. Now I've set my sights on Tawny Maxwell the one woman who stirs a possessiveness and desire in me that makes my insides twist. She's nineteen, blonde, fabulously beautiful, and married to Robert Maxwell. Which makes her a gold digger and my f**king stepmother! Oh and completely unavailable ... until now. For the old man's dead, she's the heiress of a hundred million fortune, and I'm the executor of her trust, but it ain't no walk in the park. My stepbrother and stepsisters feel robbed and are of the opinion that she should join her husband a.s.a.p, and I've got a raging hard-on. Permanently. Then I come up with the perfect solution. A fake marriage ... to me. - Tawny Maxwell Everyone thinks I'm a gold digger. Even the dazzlingly, beautiful man whom I can't stop thinking about looks at me with distrust and suspicion in his silver eyes. But they don't know the whole story. I have a secret. It's so big it will blow their minds, but I'm not telling. Never... Law of Confession 超媒體出版有限公司 This book examines two important American Protestant theologians: the archconservative Charles Hodge (1797?1878), and the archliberal Horace Bushnell (1802?1876), and their stances on racial slavery.

Hodge, with his rigid doctrine of biblical inerrancy, and Bushnell, with his open-ended experiential theology, represent two poles of thought that continually assert themselves when American Protestants speak out on social issues. This book provides a case study in the moral implications of each of these enduring polarities and upsets conventional understandings of the relationship of conservative and liberal Protestantism to slavery and race. The ambivalent attitudes of both men toward slavery and race are significant aspects of both of their enduring intellectual legacies. This is the first book-length comparison of these two theologians on this subject.
