It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call

from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite

---

tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while

searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

Coinciding with the bicentenary of the abolition of the British slave trade, this

multi-disciplinary volume chronicles the iconography of sugar, slavery, and the topography of Jamaica from the beginning of British rule in 1655 to the aftermath of emancipation in the 1840s. Focusing on the visual and material culture of slavery and emancipation in Jamaica, it offers new perspectives on art, music, and performance in Afro-Jamaican society and on the Jewish diaspora in the Caribbean. Central to the book is "Sketches of Character" (1837-38)--a remarkable series of lithographs by the Jewish Jamaican artist Isaac Mendes Belisario--the earliest visual representation of the

masquerade form Jonkonnu. Innovative scholarship traces the West African roots of Jonkonnu through its evolution in Jamaica and continuing transformation today; offers a unique portrait of Jamaican culture at a pivotal historical moment; and provides a new model for interpreting the visual culture of empire.

Why does the welfare state develop so unevenly across countries, regions, and localities? What accounts for the exclusions and

disciplinary features of social programs? How are elite and popular conceptions of social reality related to welfare policies? George Steinmetz approaches these and other issues by exploring the complex origins and development of local and national social policies in nineteenth-century Germany.

Generally regarded as the birthplace of the modern welfare state, Germany experimented with a wide variety of social programs

before 1914, including the national social insurance legislation of the 1880s, the "Elberfeld" system of poor relief, protocorporatist policies, and modern forms of social work. Imperial Germany offers a particularly useful context in which to compare different programs at various levels of government. Looking at changes in welfare policy over the course of the nineteenth century, differences between state

---

and municipal interventions, and intercity variations in policy, Steinmetz develops an account that focuses on the specific constraints on local and national policymakers and the different ways of imagining the "social question." Whereas certain aspects of the pre-1914 welfare state reinforced social divisions and even foreshadowed aspects of the Nazi regime, other dimensions actually helped to relieve sickness,

poverty, and unemployment. Steinmetz explores the conditions that led to both the positive and the objectionable features of social policy. The explanation draws on statist, Marxist, and social democratic perspectives and on theories of gender and culture.

computer, or a designer toaster, we make important decisions as consumers every day based on our sensory experience. Sensory appeals are everywhere, and they are intensifying, radically changing how Americans live and work. The twenty-first century has become the age of aesthetics, and whether we realize it or not, this influence has taken over the marketplace, and much more. In this penetrating, keenly observed book, Virginia Postrel makes the argument that appearance counts, that aesthetic value is real. Drawing from fields as diverse as fashion, real estate, politics, design, and economics, Postrel

deftly chronicles our culture's aesthetic imperative and argues persuasively that it is a vital component of a healthy, forward-looking society. Intelligent, incisive, and thought-provoking, *The Substance of Style* is a groundbreaking portrait of the democratization of taste and a brilliant examination of the way we live now.
