Discovering Computers (ed. 3) Hayden Books

She had three great reasons to make it to the top. Love, Sex, and Money. What more does life hold and how can anyone woman have it all? It begins on graduation day in Berkeley: the story of three women, friends for life, whose passions and ambitions are fueled by

love, sex, and money, and whose dreams are shaped by the torrent of history that changed women's lives forever. Pam dreams about what no woman has ever achieved-creating new buildings in that city of buildings, New York. Escaping from the poverty of her youth, Pam races east across the continent to join her father, already a real estate giant, but she is stunned by his rejection. Alone, with no resources but her unique beauty and brilliant mind, she must make a detour in her plans through the world of high-fashion modeling. A torrid affair with a dangerous and powerful man from the world of organized crime threatens to destroy her, but the city-building dream remains her guiding star. The friendship of her classmates is the one constant in her turbulent life. Trish, born into a conservative Southern California family, is drawn by her artistic gift to the "love culture" that still exists in Northern California. Her uncontrollable passion for a seductive art professor and a degrading interlude with drugs trap her in a profound despair from which she struggles to return to her artistic vision. Hillary, who discovers domestic fulfillment in an early marriage, is content to watch her friends succeed professionally, until a desire to protect her family and a love for environmental justice whet her appetite for a political career. Three women, three dreams, three destinies-love, sex, and money form the tapestry of their lives, but friendship remains the loom in this unforgettable tale of pleasure, passion, and power.

I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the

charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a commitment to Christ that sustains her to this day.
