How do you fight criminals who aren't human? From Graham Masterton, the bestselling author of the Katie Maguire series, comes an unputdownable story of a deadly alliance between L.A. gangsters and terrifying witches... A ruthless new crime syndicate holds Los Angeles in a grip of terror. Anyone who opposes it suffers a horrible death... but not at human hands. Bizarre accidents, sudden illnesses, inexplicable and gruesome deaths: the mobsters will stop at nothing to eliminate their enemies. Every bloody step of the way, their companions are four mysterious women, witches who wield more power than the gangsters could ever dream of. With the help of his mysteriously gifted neighbour, Annie Conjure, Detective Dan Fisher must fight both the LAPD's scepticism and this chilling new power. And at the heart of the nightmare lies the final puzzle, the secret of... The 5th Witch. For readers of Angela Clarke, Peter James and Stephen King, this gripping novel from the legendary Graham Masterton will leave you reeling. Praise for Graham Masterton ' One of the most original and frightening storytellers of our time ' Peter James 'A true master of the horror genre' James Herbert ' A masterly plotter who evokes both terror and suspense ' Library Journal ' A mesmerizing storyteller! ' Publishers Weekly ' The living inheritor to the realm of Edgar Allan Poe ' San Francisco Chronicle ' Masterton is a crowd-pleaser, filling his pages with sparky, appealing dialogue and visceral gore ' Time Out Recent Advances in Surgery 35 Simon and Schuster

It's time for a childbirth revolution. The modern approach to maternity care fails women, families and care providers with outdated practices that centre the needs of institutions rather than individuals. In this book, Rachel Reed weaves history, science and research with the experiences of women and care providers to create a holistic, evidence-based framework for understanding birth. Reclaiming childbirth as a rite of passage requires us to recognise that mothers own the power and expertise when it comes to birthing their babies. Whether you are a parent, care provider or

educator, this book will transform how you think and feel about childbirth.

She's on the sheriff's most wanted list. Waking up with a naked woman holding a knife at his throat is just about the last thing Sheriff Travis Flynn expected. And the brother she's looking for? A murderer. And dead. Probably. But the real shock comes when she insists she's not a Lycan. LeAnn

Wilcox isn't looking for love...especially not from some wolf in sheriff's clothing. She operates on the other side of the law. Once she finds her brother-alive-she'll get out of the pack's territory and go back to her regular, normal, non-furry life of changing jobs and her name whenever her past closes in. The cool, logical Sheriff has finally met his match, but LeAnn's life is at stake if she won't claim her place in the pack, especially once his control over the pack is challenged and her brother's fate is questioned.

The new edition of Gene Control has been updated to include significant advances in the roles of the epigenome and regulatory RNAs in gene regulation. The chapter structure remains the same: the first part consists of pairs of chapters that explain the mechanisms involved and how they regulate gene expression, and the second part deals with specific biological processes (including diseases) and how they are controlled by genes. Coverage of methodology has been strengthened by the inclusion more explanation and diagrams. The significant revision and updating will allow Gene Control to continue to be of value to students, scientists and clinicians interested in the topic of gene control.
