This is the ninth in the 300 series of circuit design books, again contains a wide range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.

The four hundred marks reproduced in this book represent the diverse array of identity work produced by Pentagram's partners, past and present, since the company was founded in 1972. Over the past four decades, Pentagram has designed marks for large corporations and small businesses, government agencies and non-profit institutions, clubs and societies, and even individuals, all of whom were seeking a representative symbol to appear on letterhead and books, buildings and websites, and everywhere else imaginable. Previously only distributed in a limited edition, this invaluable book is now made available in a paperback version and will provide inspiration for all graphic designers working on identity projects.
