When eight-year-old Irene is removed from her First Nations family to live in a residential school she is confused, frightened, and terribly homesick. She tries to remember who she is and where she came from, despite the efforts of the nuns who are in charge at the school and who tell her that she is not to use her own name but instead use the number they have assigned to her. When she goes home for summer holidays, Irene's parents decide never to send her and her brothers away again. But where will they hide? And what will happen when her parents disobey the law? Based on the life of co-author Jenny Kay Dupuis' grandmother, *I Am Not a Number* is a hugely necessary book that brings a terrible part of Canada's history to light in a way that children can learn from and relate to.

The eagle soaring against the dawning sun is perhaps a fitting symbol for the First Nation schools profiled in this volume. Each school is creating a brighter future for its young people, striving to equip them with the knowledge and the skills they need to succeed in both traditional and modern worlds. The four case studies are part of a larger study examining schools that are producing tangible progress for Aboriginal learners. The research was commissioned in 2006 by the Society for the Advancement of Excellence in Education (SAEE) and made possible through grants from Indian and Northern Affairs Canada, the Federal Interlocutor's Office, the governments of Ontario, Quebec, and Nunavut, and an anonymous Canadian foundation.

In the current environment of deepening class and income inequality, it is essential to understand the socio-economic conditions that shape the health of individuals and communities. Now in its third edition, Dennis Raphael's *Social Determinants of Health* offers a comprehensive discussion of the primary factors that influence the health of Canada's population. This seminal text on the social determinants of health contains

---

contributions from top academics and high-profile experts from across the country. Taking a public policy approach, the authors in this edited collection critically analyze the structural inequalities embedded in our society and the socio-economic factors that affect health, including income, education, employment, housing, food security, gender, and race. The thorough updates to this edition include a greater focus on the political mechanisms that explain the distribution of the social determinants of health and additional material on public policy, early childhood education in Canada, and the determinants of Indigenous peoples' health. Rich in pedagogical tools including critical thinking questions and lists of recommended readings and online resources, this book will actively engage students and researchers alike.

Leadership Experience for Academic Directions (LEAD) is a program that was developed as a service learning program for teacher candidates in preparation for the teaching career. As youth populations continue to diversify and as the issues impacting youth continue to surface, it is the responsibility of educators, administrators, and the governments to provide all the opportunities for youth to succeed academically, socially, and personally.

Teachers especially are instrumental in making this happen; therefore, it is imperative that teachers come into the profession with the cognitive and non-cognitive skills to motivate youth to succeed. The Handbook of Research on Leadership Experience for Academic Direction (LEAD) Programs for Student Success is a critical scholarly book that explores the many facets of the teaching profession as they

---

relate to working with at-risk youth and helping them reach their full potential. This book provides the groundwork for programs that will succeed at the K-12 education level and at the teacher education level. Featuring a range of topics such as human capital, mental health, and social learning theory, this book is essential for academicians, teaching professionals, administrators, professional development educators, policymakers, researchers, and students.
