This is a list of the prefix codes for Serial numbers used on caterpillar

machinery that denote model & factory of manufacture. This is an

incomplete list, which may never be able to be considered complete.

Relevant additions are welcome and you can help by expanding it.

Serial number lists almost always show the production year, not the

actual calendar year the tractor was built. This information is generally

more useful, because major changes would have been made to a model

at the start of the production year, not on January 1. Read the number

carefully On older tractors, the serial number plate has often faded.

Serial Number Year Verificationfor Off-Highway Equipment. Enter a manufacturer, model and serial number to verify year of manufacture.

Full serial number ranges for all model years are displayed whether or

not a serial number match is found. Serial numbers for 77K+
