Step 1. Find the product identification number. The engine's serial number plate is usually found

on the right rear side of the left cylinder block. Wheel loader serial number plates can usually be

found on the left side of the front frame near the operator's box.

[List of Caterpillar serial number prefix codes - Tractor ...](#)

Serial number lists almost always show the production year, not the actual calendar year the tractor was built.

This information is generally more useful, because major changes would have been made to a model at the

start of the production year, not on January 1. Read the number carefully On older tractors, the serial number

plate has often faded.
