TractorData.com - Tractor Serial Numbers

Serial number lists almost always show the production year, not the actual calendar year the tractor was built. This information is generally more useful, because major changes would have been made to a model at the start of the production year, not on January 1. Read the number carefully On older tractors, the serial number plate has often faded.

SerialBox

This is a list of the prefix codes for Serial numbers used on caterpillar machinery that denote model & factory of manufacture. This is an incomplete list, which may never be able to be considered complete. Relevant additions are welcome and you can help by expanding it.
