Crowdfunding

has gained

considerable

traction over the

last few years.

By combining the

Internet/social

media with equity-based financing, it is poised to usher in a new asset class that will change how early stage and small business financing transactions are consummated. Author Steven Dresner, Founder and CEO of Dealflow.com, understands the nuances of how crowdfunding can help companies gain much needed access to capital, and now he shares those insights with you. Engaging and informative, this

book will serve the needs of a global audience comprising entrepreneurs, financiers, and other professionals. It skillfully addresses the market dynamics that are catapulting crowdfunding into the mainstream and explores essential issues ranging from planning an online campaign, post-transaction management, and business planning to securities law and tax issues. Puts the

business of crowdfunding in perspective with a look at the current marketplace, overview of important data, and legitimate concerns. Examines effective techniques for communicating with the crowd. Details equity-based financing and other sources such as debt instruments. Contains contributions from a wide array of individuals involved in the worlds of finance, law and accounting,

social media, marketing, as well as DealFlow Media's own staff Crowdfunding affords-start ups and other smaller businesses better access to capital via the Internet/social media. It also allows an investor of any size to back a business of their choosing. This new book will show you what this process entails and how it can benefit everyone involved. The REGTECH Book Edward Elgar Publishing There are hundreds of exhibits in the investment "factor zoo." Which ones are actually worth your time, and your money?
Andrew L. Berkin and Larry E. Swedroe, co-authors of The Incredible Shrinking Alpha, bring you a thorough yet still jargon-free and accessible guide to

applying one of today's most valuable quantitative, evidence-based approaches to outperforming the market: factor investing. Designed for savvy investors and professional advisors alike, Your Complete Guide to Factor-Based Investing: The Way Smart Money Invests Today takes you on a journey through the land of academic research and an extensive review of its 50-year quest to uncover the secret of successful investing.

Along the way, Berkin and Swedroe cite and distill more than 100 academic papers on finance and introduce five unique criteria that a factor (at its most basic, a characteristic or set of characteristics common among a broad set of securities) must meet to be considered worthy of your investment. In addition to providing explanatory power to portfolio returns and delivering a premium, Swedroe and Berkin argue a factor should be persistent, pervasive, robust, investable and intuitive. By the end, you'll have learned that, within the entire "factor zoo," only certain exhibits are worth visiting and only a handful of factors are required to invest in the same manner that made Warren Buffett a legend. Your Complete Guide to Factor-Based Investing: The Way Smart Money Invests Today offers an in-depth look at the evidence practitioners use to build portfolios and

how you as an investor can benefit from that knowledge, rendering it an essential resource for making the informed and prudent investment decisions necessary to help secure your financial future.

The Self Directed IRA Handbook explains how investors can own alternative retirement plan assets in their IRAs. These assets typically include; real estate, private stock, IRA/LLCs, LP, LLC, private equity, hedge funds, private placement, crowdfunding, and

precious metals. The Handbook clearly explains the prohibited transaction rules, investment structures, common self directed IRA investment assets, and SDIRA tax pitfalls (UBIT & UDFI tax). The Handbook goes beyond the basics of self directed IRAs and includes extensive FAQs after each chapter, and nearly 100 citations to cases, statutes, rulings, and opinions from the Courts, the IRS, and the DOL. Its author, Mat Sorensen, is an experienced attorney who has advised clients with IRAs at every major self directed IRA custodian, and who speaks frequently at industry associations and before professional groups on self directed IRA topics. Mat regularly advises clients on the prohibited

transaction rules, on IRA/LLC structures, on real estate and private company investments, and on UBIT and UDFI taxes. Mat has also successfully represented self directed IRA owners before the IRS Appeals Office and the U.S. Tax Court. Crowdfunding - A Hybrid of Venture Capital and Kickstarter. Unlike venture capital, the company founders get to set their own offer terms, retain their company culture, and bring on dozens, or even hundreds of shareholders rather than just a tiny

handful - and gain all the promotional benefits that come with this. And unlike the crowdfunding offered by sites like Kickstarter and Indiegogo, equity crowdfunding allows a company to offer shares in itself, instead of a pre-ordered product. This means equity crowdfunding can be used by far more types of businesses, and typically attracts a lot more money. Companies regularly raise hundreds of thousands, or even millions of dollars through equity crowdfunding. This Book Will Show You How! Equity crowdfunding offers amazing potential for startups and growing

companies, but it is also a very steep learning curve. Many companies begin with no real idea of how to choose a platform, how to craft their pitch, or what they should be doing to drive people to their offer page and invest. In this step-by-step guide, you will learn: The forces which have brought equity crowdfunding to where it is today How to tell whether equity crowdfunding will be a good fit for your company The biggest mistakes that can kill an offer before it has even begun How to build critical momentum - one company raised 1 million in 96 seconds! How to

construct a marketing forefront of the equity Kickstarter campaigns plan to get people literally counting down to your launch How to salvage an offer which is "stuck," and re-ignite the momentum What past campaigns wished they had known before they had started The incredible impact equity crowdfunding can have on your business and profile The World's First Comprehensive Resource Featuring the very best strategies from 20 real companies who have used equity crowdfunding to raise millions of dollars, euros and pounds. And the expert advice from 12 market-leading platforms at the

crowdfunding revolution. This book is truly global in scope, featuring contributions from the United Kingdom, the United States, France, the Netherlands, Germany, Sweden, Finland, Estonia, Canada, the Middle East, Australia and New Zealand. This is THE complete guide, with no prior knowledge assumed, and will teach you equity crowdfunding from the ground up. "Raising Dough John Wiley & Sons More Than Money Jamey Stegmaier knows crowdfunding. He's a veteran of seven successful

(and counting) that have raised over \$1.4 million, and he's the proprietor of the widely read Kickstart Lessons blog. In this book he offers a comprehensive guide to crowdfunding, demonstrating that it can be a powerful way for entrepreneurs to grow their businesses by building community and putting their customers first. This book includes over forty stories of inspiring successes and sobering disasters. Stegmaier uses these examples to demonstrate how to (and how not to) prepare for a campaign, grow a fan

<p>base, structure a pitch, find new backers, and execute many other crucially important “nuts and bolts” elements of a successful crowdfunding project. But Stegmaier emphasizes that the benefits of crowdfunding are much more about the “crowd” than the “funding.” He shows that if you treat your backers as people, not pocketbooks—communicate regularly and transparently with them, ask their opinions, attend to their needs—they’ll become advocates as well as funders, exponentially increasing your project’s chances of</p>	<p>succeeding. The Self Directed IRA Handbook John Wiley & Sons This open access book presents a comprehensive and up-to-date collection of knowledge on the state of crowdfunding research and practice. startups don't have are enough customers. Traction Book changes that. We provide startup founders and employees with the framework successful companies use to get traction. It helps you determine which marketing channel will be your key to growth. "If you can get even a single distribution channel to work, you have a great business." -- Peter Thiel, billionaire PayPal founder The number one traction mistake founders and employees make is not dedicating as much time to traction as they do to developing a product. This shortsighted approach has

startups trying random tactics -- some ads, a blog post or two -- in an unstructured way that will likely fail. We developed our traction framework called Bullseye with the help of the founders behind several of the biggest companies and organizations in the world like Jimmy Wales (Wikipedia), Alexis Ohanian (Reddit), Paul English (Kayak.com), Alex Pachikov (Evernote) and more. We interviewed over forty successful founders and researched countless more traction stories -- pulling out the repeatable tactics and strategies they used

to get traction. "Many entrepreneurs who build great products simply don't have a good distribution strategy." -- Mark Andreessen, venture capitalist Traction will show you how some of the biggest internet companies have grown, and give you the same tools and framework to get traction. Are you taking full advantage? Step by Step Guide to Launching a Successful Crowdfunding Project World Scientific The easy way to get started in crowdfund investing Crowdfund investing (CFI) is going to be the next big thing on Wall Street. U.S. investment banks, brokerage houses, and law firms are gearing up for the creation and regulation of new financial products that will be available to the general public starting in early 2013. The introduction of these

products will revolutionize the financing of small businesses and startups for these key reasons: Entrepreneurs and small business owners, who have had difficulty obtaining capital through traditional means (such as bank loans and angel investors) in recent years, will have access to investors around the world through social media. For the first time, investors (so-called unqualified investors) will be able to purchase an equity stake in a business or new investment vehicle. The Securities and Exchange Commission (SEC) is overseeing the creation of online portals that will allow entrepreneurs and small investors to connect. When these portals go live in 2013,

Crowdfund Investing For Dummies will be on the front line to educate business owners, other entrepreneurs, and investors alike. Crowdfund Investing For Dummies will walk entrepreneurs and investors, like yourself, through this new investing experience, beginning with explaining how and why CFI developed and what the 2012 JOBS says about CFI. Entrepreneurs will find out how much funding they can realistically raise through CFI; how to plan and launch a CFI campaign; how to manage the crowd after a campaign is successful; and how to work within the SEC ' s regulations at every stage. Investors will discover: the benefits and risks of CFI ;how much they

can invest; how a CFI investment may fit into a broader investment portfolio; how to provide value to the business or project being funded; and how to bow out of an investment when the time is right.

Crowdfund Investing For Dummies is an indispensable resource for long time investors and novice investors alike.
