Qualities of an Emergency Department Note. The ED note should paint a picture of the encounter: how it began, how it evolved (and the factors that drove that evolution), how it comes to a conclusion, and where it needs to go in the future. It should tell a story that the reader can follow easily and completely.

Er Documentation Guidelines - ssb.rootsystems.nz

The most basic ER documentation must include: patient identification, how the patient arrived, care rendered prior to arrival, relevant history, chronological listing of physical examinations including vital signs, and the results of diagnostics, treatments and tests. The physician ' s orders and diagnostic analysis should be recorded.
