C: induced draft blower runs for 20 seconds, ignitor heats up for 15 seconds, gas valve opens, burner lights off and flame sensor monitors flame. Plenum heats up, blower pulls air over the heat exchanger  
D: None of these is correct, as condensing furnaces do not use induced draft blowers.

## Progressive Levels of Certification - Esco Group

Employment Ready Certifications are discipline-specific exams, administered at the end of a training module or course. This provides instructors with valuable feedback to validate each participant's understanding of the course materials, if they need additional training, and if so, in what area.
