This book is about designing instruction that makes comprehension the priority in reading and in content area study. The comprehension model described responds to calls from literacy experts and professional organizations for inquiry-based instruction that prepares readers to be active meaning makers who are adept at both critical and creative thinking. Comprehension First introduces a before, during, after Comprehension Problem Solving (CPS) process that helps readers ask key questions so they arrive at a substantial comprehension product-"big ideas" based on themes and conclusions drawn from literary works and expository texts. The book further describes how to orchestrate research-based best practices to build lessons and units around big ideas and important questions. In this age of multiple literacies, all of us must learn to be more nimble users of Literacy 2.0 communication tools. Mastering problem solving is at the core of this challenge. Comprehension First embraces this challenge by inviting present and future teachers to examine WHY and HOW these tools can be used more purposefully to achieve the pre-eminent literacy goal of deep comprehension.

They rowed hard, away from the battleships and the bombs. Water sprayed over them. The rowboat pitched one way and then the other. Then, before his eyes, the Arizona lifted up out of the water. That enormous battleship bounced up in the air like a rubber ball and split apart. Fire burst out of the ship. A geyser of water shot into the air and came crashing down. Adam was almost thrown out of the rowboat. He clung to the seat as it swung around. He saw blue skies and the glittering city. The boat swung back again, and he saw black clouds, and the Arizona, his father's ship, sinking beneath the water. -- from *A Boy at War* "He kept looking up, afraid the planes would come back. The sky was obscured by black smoke....It was all unreal: the battleships half sunk, the bullet holes in the boat, Davi and Martin in the water." December 7, 1941: On a quiet Sunday morning, while Adam and his friends are fishing near Honolulu, a surprise attack by Japanese bombers destroys the fleet at Pearl Harbor. Even as Adam struggles to survive the sudden chaos all around him, and as his friends endure the brunt of the attack, a greater concern hangs over his head: Adam's father, a navy lieutenant, was stationed on the USS Arizona when the bombs fell. During the subsequent days Adam -- not yet a man, but no longer a boy -- is caught up in the war as he desperately tries to make sense of what happened to his friends and to find news of his father. Harry Mazer, whose autobiographical novel, *The Last Mission*, brought the European side of World War II to vivid life, now turns to the Pacific theater and how the impact of war can alter young lives forever.

The two seas met in the middle of Broadway, swirling over the wooden paving blocks, and I couldn't help but shudder at the sight. All of Galveston appeared to be under water. He longs to be a carpenter like his father, but his family has moved to Galveston so he can go to a good school. Still, the last few weeks of summer might not be so bad. Seth has a real job as a builder and the beach is within walking distance. Things seem to be looking up, until a storm warning is raised one sweltering afternoon. No one could have imagined anything like this. Giant walls of water crash in from the sea. Shingles and bricks are deadly missiles flying through the air. People not hit by flying debris are swept away by rushing water. Forget the future, Seth and his family will be lucky to survive the next twenty-four hours. *Dark Water Rising* is a 2007 Bank Street - Best Children's Book of the Year.

In these times and for future generations, students must learn how to analyze constantly changing issues, decipher media as truth or fake news, and contest highly competitive, biased informational sources. Students must develop knowledge, skills, and attitudes necessary for leveraging their capacity as active citizens charged with holding institutions accountable for truthfully addressing and protecting civil liberties. Extending the Ground of Public Confidence: Teaching Civil Liberties in K-16 Social Studies Education is a book grounded in current scholarship and seeks to address the need for a practical, user-friendly resource for teaching civil liberties in K-12 social studies and teacher education. This book brings together chapter-length discussions about various issues, introduced first from historic perspectives and then compared and described in modern terms. Such topics include, though are not limited to, disputes surrounding freedom of speech and religion, power issues, defending property rights, debates on security of persons and privacy, free exercise of assembly and expression, and the endless debate about who can and cannot vote in U.S. elections.

Each chapter contains teaching-ready, inquiry-based learning activities framed by the National Council for the Social Studies (NCSS) College, Career, and Civic Life (C3) Inquiry Arc (2013). Students (1) develop questions and plan investigations; (2) apply disciplinary concepts and tools; (3) gather, evaluate and use evidence; and (4) work collaboratively to communicate conclusions and take informed action. Lesson ideas engage learners across age groups and grade levels in learning that fosters informed, sustainable actions aimed at upholding and protecting civil liberties.
