Since the first edition of Essentials of Firefighting was published in 1978, more than 2 million firefighters have used the manual for training. Because so many successful firefighters have trained from this manual over three decades, Essentials of Fire Fighting is often referred to as "the bible" of basic firefighter skills. In addition, the information in Essentials is commonly accepted as the standard for fire fighting knowledge in North America. This 5th edition is a completely new revision and includes all the information needed to meet the fire fighting requirements for National Fire Protection Association (NFPA®) 1001, Standard for Fire Fighter Professional Qualifications (2008 edition), Fire Fighter Levels I and II. All photographs and illustrations are in full color. This manual includes instructional tools such as learning objectives, key terms, case histories, and review questions in each chapter to enhance a student's understanding. To help students with psychomotor learning, skill sheets depicting firefighter skills are included in most chapters. These feature step-by-step photographs and instructions for completing each skill. Each manual also includes a bonus CD-ROM that provides additional learning materials, case studies, animations, and learning activities.

The Complete Fire Officer III and IV Training Solution! Chief officers need to know how to make the transition from company officer to chief officer. Chief Officer: Principles and Practice is designed to help make the transition from company officer to chief officer a smooth evolution. Covering the entire scope of Levels III and IV from the 2009 Edition of NFPA 1021, Standard for Fire Officer Professional Qualifications, Chief Officer combines current content with dynamic features and interactive technology to better support instructors and to help prepare future chief officers to become problem-solving leaders for their organizations. Chief Officer: Principles and Practice has a clear focus on instilling fire fighter safety throughout an organization ' s culture. Reducing fire fighter injuries and deaths requires the dedicated efforts of every fire fighter, fire officer, and fire department. The entire fire community must work together to achieve one common goal: to ensure that everyone goes home. Chief officers therefore set the tone for safety in their organization, and this textbook embraces that philosophy. It is with this goal in mind that the 16 Firefighter Life Safety Initiatives, developed by the National Fallen Firefighters Foundation, are integrated throughout the text. The features in this textbook will help students take that extra step toward becoming outstanding chief officers. These features include: • Scenario-Based Learning. You Are the Chief Officer and Chief Officer in Action are found in each chapter to encourage and foster critical thinking skills. • Practical Tips for the Chief Officer. Chief Officer Tips and Voices of Experience essays are integrated into each chapter to provide helpful advice from experienced chief officers. • Level IV Job Performance Requirements. Fire Officer Level IV content is highlighted to discern Level III JPRs from Level IV. • Walk the Talk. Additional activities encourage students to take what they have learned in the chapter and apply it to their own department.

Brannigan ' s Building Construction for the Fire Service, Fourth Edition is a must read for fire fighters, prospective fire fighters, and fire science students. This edition continues the Brannigan tradition of using plain language to describe technical information about different building types and their unique hazards. This text ensures that critical fire fighting information is easy-to-understand and gives valuable experience to fire fighters before stepping onto the fireground. The first edition of Building Construction for the Fire Service was published in 1971. Frank Brannigan was compelled to write the most comprehensive building construction text for the fire service so that he could save fire fighters ' lives. His passion for detail and extensive practical experience helped him to develop the most popular text on the market. His motto of: " Know your buildings, " informs every aspect of this new edition of the text. Listen to a Podcast with Brannigan's Building Construction for the Fire Service, Fourth Edition co-author Glenn Corbett to learn more about this training program! Glenn discusses his relationship with the late Frank Brannigan, the dangers of heavy construction timber, occupancy specific hazards, and other areas of emphasis within the Fourth Edition.
