Heaven refers to them as Misplaced Halos. Humans don't even know they exist. This faction of celestial warriors was sent here under the cover of darkness to protect humanity from Lucifer's demons. In return for their servitude, these warriors expect only one thing: the love they were promised, what angels refer to as an amsouelot. The first of his kind, Obsidian has spent the past fifteen hundred years fighting alongside his brothers, protecting humans from Lucifer's demons, all while keeping to the shadows. Their mission is simple, right up until it isn't. The day Obsidian learns of a traitor in Heaven is the day everything changes. The entire reason for his existence is put on hold because there's a new assignment: find the female whose soul belongs to his and protect her, no matter the cost. Penelope Calazans spends her days sleeping and her nights serving free drinks to the gamblers looking to win big in Sin City. It's not a glamorous life, perhaps a tad lonely, but she's content. Or she thought she was. Then he appears. The mystery man who would turn out not to be a man at all, but rather an angel. The angel who would turn Penelope's mundane life upside down, revealing what really lurks in the dark. Not only do they have to battle the demons looking to possess their souls, but Obsidian and Penelope must overcome the obstacles that come with falling in love. In the end, an angel and a human must make the ultimate sacrifice, all in the name of a love everlasting.

Words equal credibility. The more articulate a person is, the more seriously they will be taken—by everyone. On any given day, you might read “abrogate” used in a USA Today article; or “demagogue” or “fiduciary” used on CNN. You might hear “ensorcelled” and “torpor” in a TV drama; you'll hear a political candidate described as

“truculent.” You may hear “pedantic” used in a movie. How many of these words are part of most college students' “arsenal of words”? Hopefully all of them, but if not, 499 Words Every College Student Should Know will provide them with what they need to become more articulate in their speaking and writing. It will also enhance their comprehension in their reading, ultimately culminating in what every student aspires to: earning better grades! 499 Words Every College Student Should Know teaches truly important vocabulary words and focuses on Professor Spignesi's classroom-tested Trinity of Vocabulary Use. For each word, the vocabulary-enriched and educated student will be able to: Understand the word in their reading Use the word in their speaking Make good use of the word in their writing Using easy-to-understand, informative, and often humorous explanations of every word, 499 Words Every College Student Should Know also explores how to use the words in sentences, and in proper context. The majority of these words were individually chosen because they are fairly commonplace in media, books, online, and elsewhere, and students need to be able to understand them. Knowing them — in fact, using the words and making them part of their everyday language — will make any college student or those soon-to-be, more credible.

If traditional film noir is a genre of mid-century black and white urban crime thrillers evoking an expressionist mood with its dark corners and back alleys, with its trench coats and shadows slanting through Venetian blinds in dusty offices where the scent of death hangs in a plume of coiling cigarette smoke and where mysterious women with golden hair and stiletto heels plead their case to a P.I. fighting inner demons, then film *soleil* is its modern or late-century reconfiguration, adapted to modern tastes and exploiting technical innovations, using as its most common setting dry sun-beaten highways that cut mercilessly through a parched, sagebrush-filled desert, its women in cowboy boots and jeans and the men deranged by their biological drives. The string of late century sunlit crime films officially began in 1984 with the release of *Blood Simple*, and soon included *Kill Me Again* (1989), *After Dark, My Sweet* (1990), and *One False Move* (1992), heralding the arrival of a new cinematic style that, unlike traditional noir, sometimes celebrated evil, rewarded greed, and in general indicated significant moral shifts in the culture.

The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the *Seattle Times* as "the

definitive account of how a tech icon came to life." Amazon.com started off delivering books through the mail. But its visionary founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing. The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.

#### *Good Economics for Hard Times* Nicole Edwards Limited

The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.
