Build profits even in the worst of times with the methods of a Technical Analysis legend “ Deemer on Technical Analysis will become an instant investment book classic. ”

—Douglas A. Kass, Seabreeze Partners Management, Inc. “ Serving on the front lines of this investment discipline for the past 40 years with some of the most influential investors of our time, Deemer provides a front-row seat on some fascinating history, rich with insights and anecdotes and, of course, loaded with wisdom. His true gift is making the arcane world of technical analysis accessible and relevant to all investors. If Warren Buffett is the Oracle of Omaha, Deemer is the Prophet of Port St. Lucie. ” —Sandra Ward, Senior Editor, Barron ’ s “ I have had the great pleasure of working with and getting to know some of the greatest technical analysts throughout the past 50 years. Walt Deemer is widely recognized as one of the best. His charm and wit in explaining the keys to successful investing will make [this] book a must-read and an all-time classic for first-time investors and

professionals alike. ” —Paul Desmond, Lowry Research “ Every investor can learn something from Walter Deemer. ” —David Fuller, Global Strategist, Fullermoney.com Today ’ s volatile markets are challenging for professional and retail investors alike. Just in time, Walter Deemer, a cornerstone of technical analysis for nearly 50 years, has culled his insight and knowledge to show investors how to achieve steady investment gains in the current markets. With the stock market expected to trade generally sideways for many years, a buy-and-hold strategy may not give you the returns you need on your investments. In Deemer on Technical Analysis, Walter distills his decades spent on the front lines of the financial markets into a useful strategy that shows you how to time the markets to successfully grow wealth. The key is solid technical analysis. Inside, you will learn the nuts and bolts of charting, identifying indicators, recognizing trends, and selecting the best stocks for your goals. This step-by-step guide shows you how to: Read the emotional characteristics of the markets in order to better direct investments Pinpoint the most profitable entry and exit points Effectively use the long-term timing tools preferred by top experts, including investor sentiment, relative strength, and trend recognition Cut through short-term noise with the Kondratiev Wave Cycle, Four-Year Cycle, and simple

---

long-term chart analysis Deemer on Technical Analysis also weaves in entertaining and clarifying anecdotes from the author's colorful life working at prestigious firms, where he rubbed elbows with A-list icons of Wall Street. Each anecdote reinforces real-world applications of covered material to help you more effectively seize opportunities in the financial markets. From his early days with Bob Farrell at Merrill Lynch and Gerry Tsai at the Manhattan Fund, to his years as head of market analysis at Putnam Investments and president of DTR, Inc., Deemer has been dispensing timely advice exclusively to top figures in the field. Now, in his quasi-retirement, this technician's technician has written a book that levels the playing field, so that you, too, can invest like a pro.

How to Get All the Benefits of Day Trading without the Downside Risk. Would you jump out of an airplane without a parachute? Then why would you start making trades online before you learned what you were doing? It's crazy! But with deep discount brokers making it look so easy for individual investors, it's no wonder consumers today are lulled into a false sense of security. "Opening an online account is the easy part! It's making successful trades that's the hard part!" Don't leave your money in the hands of crooked financial advisors and greedy fund managers who charge high fees for low returns. With the new economy, comes new trading rules. You can't rely on outdated textbooks and strategies anymore. But if you adapt, you can make a considerable fortune with these new market conditions. Here's the deal. Swing trading requires less start-up capital than day trading. And unlike day trading, swing trading plays out over a few days or a week – which gives you much more room for error. Making it far more beginner friendly, with an easier learning curve. It's also ideal if you have a family, or want to start in your spare time. Here's just a fraction of what you'll discover inside: The best brokerage accounts

for swing traders (setting this up right can save you \$1000+ a year in commissions) How social media moves asset prices, and how to always be first to act on these (do this and you'll almost always ensure lower entry prices than your competition) The only 3 strategies you need for swing trading success (despite what everyone else tells you, it's these 3 which will bring 90% of your profits) How to always ensure the right entry position for a trade The magic trading number: If you win this percentage of your trades, you'll make massive profits (lower than you think) How to spot under or overvalued stocks with 99% accuracy The secret to finding your trading edge (hint: the risk-reward ratio isn't enough) When to invest, and more important when NOT to invest like Warren Buffett The 10 best traders to follow on Twitter for maximum profit opportunities How to trade like a financial institution – even if you're just doing this in your spare time Chart patterns that provide trading opportunities How to master the emotional side of trading A simple technique you can do in just 5 minutes a day. This is used by top hedge fund traders, and almost always guarantees an increase in your percentage of winning trades Understanding recent tax law changes – and their impact on your business (in plain English) How to let the market do the work for you (an effective "passive trading" strategy) ...and much, much more. You may have experienced various obnoxious and even misleading advertisements of easy, get rich trading strategies. This is not one of those. You won't have to spend thousands on expensive trading software or "magic bullet systems" In fact, you can get started using an online trading account and use free websites for your information (you'll find the best two in Chapter 7) You will build up both your skills and confidence, with practical "how-to" approaches. All written in plain, easy to understand English. So if you want to make money in your spare time, and have fun while doing it... scroll up and click "add to cart"

**Autogenic Trading** The Market Guys' Five Points for Trading Success

The eTrade Readiness Assessment of Bangladesh focuses on examining seven key policy areas that are most relevant for e-commerce. Within each area, critical

---

readiness gaps are identified and relevant recommendations are proposed to overcome barriers and bottlenecks to the growth of digital trade. Bangladesh has made significant strides in the ICT area, and its efforts to develop the digital economy with strong public and private sector collaboration is a case-study in policy development. Indeed, with its young, dynamic and IT savvy population, Bangladesh is fertile ground for e-commerce to take root and benefit companies and end-consumers alike.

An up-to-date guide to the complex world of equities Getting Started in Stock Investing and Trading walks investors and traders through the essential information they need to know before they decide what kind of participant they want to be in equities. The book is filled with the key strategies and tools and offers a comprehensive guide for those entering this marketplace. The author does not argue that one method is better or more appropriate than another. Rather, he reveals the various methods and lets investors decide for themselves. The book covers investment risks, value investing, market strategies, trading methods such as day and swing trading, technical indicators, and diversifying your portfolio, and Offers a thorough overview of strategies and tools that investors need to profit from the volatile equities markets Provides examples, charts, and timely additions that reflect recent changes in the equities markets Other titles by Thomsett: Getting Started in Bonds and eight editions of Getting Started in Options. This book is another title in The Getting Started series, which makes complex issues easy to understand.

Investing Online For Dummies Stefano Luciani The Heretics of Finance provides extraordinary insight into both the art of technical analysis and the character of the successful trader. Distinguished MIT professor Andrew W. Lo and researcher Jasmina Hasahodzic interviewed thirteen highly successful, award-winning

market professionals who credit their substantial achievements to technical analysis. The result is the story of technical analysis in the words of the people who know it best; the lively and candid interviews with these gurus of technical analysis. The first half of the book focuses on the technicians' careers: How and why they learned technical analysis What market conditions increase their chances of making mistakes What their average workday is like To what extent trading controls their lives Whether they work on their own or with a team How their style of technical analysis is unique The second half concentrates on technical analysis and addresses questions such as these: Did the lack of validation by academics ever cause you to doubt technical analysis? Can technical analysis be applied to other disciplines? How do you prove the validity of the method? How has computer software influenced the craft? What is the role of luck in technical analysis? Are there laws that underlie market action? What traits characterize a highly successful trader? How do you test patterns before you start using them with real money? Interviewees include: Ralph J. Acampora, Laszlo Birinyi, Walter Deemer, Paul Desmond, Gail Dudack, Robert J. Farrell, Ian McAvity, John Murphy, Robert Prechter, Linda Raschke, Alan R. Shaw, Anthony Tabell, Stan Weinstein.

Trading for a Living Successful trading is based on three M's: Mind, Method, and Money. Trading for a Living helps you master all of those three areas: \* How to become a cool, calm, and collected trader \* How to profit from reading the behavior of the market crowd \* How to use a computer to find good trades \* How to develop a powerful trading system \* How to find the trades with the best odds of success \* How to find entry and exit points, set stops, and take profits Trading for a Living helps you discipline your Mind, shows you the Methods for trading the markets, and shows you how to

---

manage Money in your trading accounts so that no string of losses can kick you out of the game. To help you profit even more from the ideas in *Trading for a Living*, look for the companion volume--*Study Guide for Trading for a Living*. It asks over 200 multiple-choice questions, with answers and 11 rating scales for sharpening your trading skills. For example: Question Markets rise when \* there are more buyers than sellers \* buyers are more aggressive than sellers \* sellers are afraid and demand a premium \* more shares or contracts are bought than sold \* I and II \* II and III \* II and IV \* III and IV Answer B. II and III. Every change in price reflects what happens in the battle between bulls and bears. Markets rise when bulls feel more strongly than bears. They rally when buyers are confident and sellers demand a premium for participating in the game that is going against them. There is a buyer and a seller behind every transaction. The number of stocks or futures bought and sold is equal by definition.

Day Trading: Beat The System and Make Money in Any Market Environment Strelbytskyy Multimedia Publishing

Praise for *The Market Guys' Five Points for Trading Success* "E\*TRADE is a strong advocate of investor education, understanding a knowledgeable investor is a successful investor. The Market Guys have been a key contributor to our worldwide educational efforts - delivering hundreds of seminars to our customers around the world. This book encapsulates their years of experience with traders and investors, and is a must-read for anyone serious about trading. *The Market Guys' Five Points for Trading Success* provides an easy-to-understand and disciplined approach to trading through risk management. I highly recommend it." —Christopher Larkin, VP, U.S. Retail Brokerage, E\*TRADE Securities (www.etrade.com) "The stock market is full of risk and uncertainty, but can bring great rewards to those who plan and execute properly. Rick and AJ give you the navigational tools to profit in the

market through this book. Easy to read and understand, this book will help the novice and expert alike reach their financial goals. I recommend *The Market Guys* to help you along your journey!" —Astronaut Dr. Buzz Aldrin, Apollo 11, 1969 "The Market Guys' Five Points is much more than five points. Creating a plan, dealing with emotions, trading psychology, and technical analysis are just some of the topics explained."

—James Bittman, Senior Instructor, The Options Institute at CBOE, and author of *Options for the Stock Investor* "Most people think trading markets is easy, but the process is fraught with pitfalls, snares, and delusions. This book is written by two savvy veteran traders. Applying the wisdom contained here will not guarantee success, but it will very definitely put the odds strongly in your favor."

—Martin J. Pring, President of pring.com "This is a wonderful introduction to terminology and a fresh approach to the stock market. It gives the reader a language and way of thinking that is new, providing a great foundation for further research. These authors are to be commended for an excellent book on the stock market and how it works." —James P. Gills, MD, Director/Chairman of the Board of the Ironman Triathlon "The Market Guys have created the perfect recipe for financial success." —Nick Nickolas, Restaurateur, Nick's Fishmarket of Hawaii, www.nicksboca.com

Pattern Recognition and Trading Decisions McGraw Hill Professional

*How I Made 2,00,000 In The Stock Market* Nicholas Darvas, author of *How I Made 2,000,000 in the Stock Market*, concluded that Wall Street was nothing more than a huge gambling casino. It bristled with dealers, croupiers and touts--and he explained all of this in a later highly successful book, *Wall Street: The Other Las Vegas*. *How I Made 2,000,000 in the Stock Market* is an extraordinary book. It tells one of the most unusual success stories in the history of the stock market. Darvas was not a stock market professional trading on inside information. He was one half of the highest paid dance team in show business.

---

Ye he was able to make himself a millionaire several times over by his unique investment approach. Unlike other so-called systems, it worked regardless of whether the market rose or fell. When news of Darvas' fantastic profits and methods leaked out, he was featured in Time Magazine. He then was persuaded to write a book which became an instant hit, selling nearly 200,000 copies in eight weeks. Many of the companies talked about in this book no longer exist. Many of the stocks are no longer traded. Nevertheless, the basic principles are as sound as ever.

### **The Complete Penny Stock Course** CRC Press

Success in technical analysis is all about recognizing, and quickly acting on, patterns of market behavior. Pattern Recognition and Trading Decisions shows active traders how to realize when a pattern is developing, distinguish between a genuine pattern and a misleading series of events, and apply this recognition for success in specific trading situations. A how-to guide that steers clear of difficult calculations and formulas, this dynamic book--from an author tabbed "far ahead of anyone else" by technical analysis guru Martin Pring--is destined to be on the desktop of every serious technical trader.

Investors Chronicle Callisto Media Inc.

"There are fifteen major breakthroughs in technical analysis! SEVEN of these breakthroughs are new, never-before-revealed material!" - George Lane, Stochastics Originator. As professional traders approach the 21st century, accelerating technological change threatens to make conventional technical studies and indicators ineffective. To compete in this changing environment, these professionals need radical new uses and combinations of indicators and formulas to keep their competitive edge. Not a primer for

the novice, TECHNICAL ANALYSIS FOR THE TRADING PROFESSIONAL resets the scales, arming today's professional trader with new, unique, and never-before-seen formulas and uses of key market indicators and techniques.

### **The New Technical Trader** United Nations

Success as a day trader will only come to 10 percent of those who try. It's important to understand why most traders fail so that you can avoid those mistakes. The day traders who lose money in the market are losing because of a failure to either choose the right stocks, manage risk, and find proper entries or follow the rules of a proven strategy. In this book, I will teach you trading techniques that I personally use to profit from the market. Before diving into the trading strategies, we will first build your foundation for success as a trader by discussing the two most important skills you can possess. I like to say that a day trader is two things: a hunter of volatility and a manager of risk. I'll explain how to find predictable volatility and how to manage your risk so you can make money and be right only 50 percent of the time. We turn the tables by putting the odds for success in your favor. By picking up this book, you show dedication to improve your trading. This by itself sets you apart from the majority of beginner traders.

*Technical Analysis for the Trading Professional* Millionaire Publishing

A value based, conservative stock picking strategy.

### The Index Trading Course John Wiley & Sons

A compilation of the very best of Daryl Guppy Daryl Guppy has been one of Australia's foremost experts on share trading and charting for almost 20 years. His first book, Share Trading, is still a must-read for people wanting to learn about the market and is widely accepted as the best-selling trading

---

book ever in Australia. Guppy Trading contains detailed analysis of many topics, including: making effective trades based on news events and informed trading advanced application of the Guppy Multiple Moving Average to assess the true strength of a trend how to establish and improve trade entry, exit and stop loss points in volatile markets effective trading of international markets safely integrating derivatives to boost portfolio returns. Guppy Trading contains 23 of the most enduring and important chapters from Guppy's earlier books, completely revised, and combines them with 10 entirely new chapters. These new chapters detail new trading methods and instruments that have been developed to create additional opportunities and ensure survival in interconnected modern markets. This comprehensive compendium is critical reading for traders looking to maximise their returns.
