compliant, with Iveco

choosing to take the step well

before it becomes mandatory

in Australia. There are three

models in the new Eurocargo

range, ranging from 12-tonne

to 18-tonne GVM, and all are

powered by the same 6.7-litre

Iveco Eurocargo review | Auto Trader UK

The six-cylinder engine's nominal ratings of 220hp, 250hp and 280hp ratings are carried over from Euro-5. The 320hp/1,100Nm range-topper is new, replacing Euro-5's 300hp/1,050Nm. Gearboxes also carried over from Euro-5 are 5-, 6- and 9-speed manuals from ZF, the 6-speed automated ZF AS-Tronic lite and Allison's 5-speed full automatic.

Eurocargo Tector 6 cylinder engines - Iveco

The Eurocargo range is also enhanced with a new Eurotronic automated ZF transmission with 12 gears, available for the 6-cylinder Tector 7 as well as for towing versions. The introduction of these innovative new features has had a positive effect on the TCO (Total Cost of Ownership - the cost of

managing the vehicle), Iveco's real "focus" when designing the new Eurocargo Euro VI.
