The Rise and Fall of States and Nations Forgotten Books

A detailed account of the August 1944 battle for control of Warsaw describes how the Polish Resistance mobilized to expel the Germans and discusses the tragic consequences of Stalin's halting of the Russian offensive, a move that cost the lives of thousands of Polish citizens and the destruction of the city. Reprint.

Unto the Soul Ivan R Dee

Following the conquest of Poland by Nazi Germany and the Soviet Union in 1939, hundreds of thousands of Polish families were torn from their homes and sent eastwards to the arctic wastes of Siberia. Prisoners of war, refugees, those regarded as 'social criminals' by Stalin's regime, and those rounded up by sheer chance were all sent 'to see the Great White Bear'. However, with Hitler's invasion of the Soviet Union in Operation Barbarossa just two years later, Russia and the Allied powers found themselves on the same side once more. Turning to those that it had previously deemed 'undesirable', Russia sought to raise a Polish army from the men, women and children that it had imprisoned within its labour camps. In this remarkable work, renowned historian Professor Norman Davies draws from years of meticulous research to recount the compelling story of this unit, the Polish II Corps or 'Anders Army', and their exceptional journey from the Gulag of Siberia through Iran, the Middle East and North Africa to the battlefields of Italy to fight shoulder-to-shoulder with Allied forces. Complete with previously unpublished photographs and first-hand accounts from the men and women who lived through it, this is a unique visual and written record of one of the most fascinating episodes of World War II.

**World War II in Europe, 1939-1945** Penguin

From the ice age to the Cold War, from Reykjavik to the Volga, from Minos to Margaret Thatcher, Norman Davies here tells the entire history of Europe in one single volume. The narrative zooms in from the distant focus of Chapter One, which explores the first five million years of the continent's development, to the close focus of the last two chapters, which cover the twentieth century at roughly one page per year. In between, Norman Davies presents a vast canvas packed with startling detail and thoughtful analysis. Alongside Europe's better-known stories - human, national and international - he examines subjects often spurned or neglected - Europe's stateless nations, for example, as well as the nation-states and great powers, and the minority groups from heretics and lepers to Romanians, Jews, and Muslims. He reveals not only the rich diversity of Europe's past but also the numerous prisms through which it can be viewed.

**When the Facts Change** Penguin UK

The conventional narrative of the Second World War is well known: after six years of brutal fighting on land, sea and in the air, the Allied Powers prevailed and the Nazi regime was defeated. But as in so many things, the truth is somewhat different. Bringing a fresh eye to bear on a story we think we know, Norman Davies. Davies forces us to look again at those six years and to discard the usual narrative of Allied good versus Nazi evil, reminding us that the war in Europe was dominated by two evil monsters - Hitler and Stalin - whose fight for supremacy consumed the best people in Germany and in the USSR. The outcome of the war was at best ambiguous, the victory of the West was only partial, its moral reputation severely tarnished and, for the greater part of the continent of Europe, 'liberation' was only the beginning of more than fifty years of totalitarian oppression. 'Davies writes with real knowledge and passion.' Michael Burleigh, Evening Standard 'Punchy and compelling' Noel Malcolm, Sunday Telegraph

"A lovely, personal journey around the Adriatic, in which Robert Kaplan revisits places and peoples he first encountered decades ago—explaining a region that, while often overlooked, offers clues about Europe's past, present, and future." —Peter Frankopan, author of *The Silk Roads* In this insightful travelogue, Robert D. Kaplan, geopolitical expert and bestselling author of *Balkan Ghosts* and *The Revenge of Geography*, turns his perceptive eye to a region that for centuries has been a meeting point of cultures, trade, and ideas. He undertakes a journey around the Adriatic Sea, through Italy, Slovenia, Croatia, Montenegro, Albania, and Greece, to reveal that far more is happening in the region than most news stories let on. Often overlooked, the Adriatic is in fact at the center of the most significant challenges of our time, including the rise of populist politics, the refugee crisis, and battles over the control of energy resources. And it is once again becoming a global trading hub that will determine Europe's relationship with the rest of the world as China and Russia compete for dominance in its ports. Kaplan explores how the region has changed over his three decades of observing it as a journalist. He finds that to understand both the historical and contemporary Adriatic is to gain a window on the future of Europe as a whole, and he unearths a stark truth: The era of populism is an epiphenomenon—a symptom of the age of nationalism coming to an end. Instead, the continent is returning to alignments of the early modern era as distinctions between East and West meet and break down within the Adriatic countries and ultimately throughout Europe. With a brilliant cross-pollination of history, literature, art, architecture, and current events, in *Adriatic*, Kaplan demonstrates that this unique region that exists at the intersection of civilizations holds revelatory truths for the future of global affairs.

'He writes history like nobody else. He thinks like nobody else ... He sees the world as a whole, with its limitless fund of stories' Bryan Appleyard, Sunday Times Where have the people in any particular place actually come from? What are the historical complexities in any particular place? This evocative historical journey around the world shows us. 'Human history is a tale not just of constant change but equally of perpetual locomotion', writes Norman Davies. Throughout the ages, men and women have endlessly sought the greener side of the hill. Their migrations, collisions, conquests and interactions have given rise to the spectacular profusion of cultures, races, languages and polities that now proliferates on every continent. This incessant restlessness inspired Davies's own. After decades of writing about European history, and like Tennyson's ageing Ulysses longing for one last adventure, he embarked upon

an extended journey that took him right round the world to a score of hitherto unfamiliar countries. His aims were to test his powers of observation and to revel in the exotic, but equally to encounter history in a new way. *Beneath Another Sky* is partly a historian's travelogue, partly a highly engaging exploration of events and personalities that have fashioned today's world - and entirely sui generis. Davies's circumnavigation takes him to Baku, the Emirates, India, Malaysia, Mauritius, Tasmania, Tahiti, Texas, Madeira and many places in between. At every stop, he not only describes the current scene but also excavates the layers of accumulated experience that underpin the present. He tramps round ancient temples and weird museums, summarises the complexity of Indian castes, Austronesian languages and Pacific explorations, delves into the fate of indigenous peoples and of a missing Malaysian airliner, reflects on cultural conflict in Cornwall, uncovers the Nazi origins of Frankfurt airport and lectures on imperialism in a desert oasis. 'Everything has its history', he writes, 'including the history of finding one's way or of getting lost.' The personality of the author comes across strongly - wry, romantic, occasionally grumpy, but with an endless curiosity and appetite for knowledge. As always, Norman Davies watches the historical horizon as well as what is close at hand, and brilliantly complicates our view of the past.

The fascinating history of a Baltic empire's dominance and decline—excerpted from internationally bestselling author Norman Davies's *Vanished Kingdoms* *Vanished Kingdoms* introduces readers to once-powerful European empires that have left scant traces on the modern map. In this excerpt from his widely acclaimed book, Norman Davies tells the ill-fated story of the Grand Duchy of Lithuania. Founded in the mid-thirteenth century in one of the continent's first settled regions, where the oldest of its Indo-European languages is spoken, the Grand Duchy at its peak was the largest country in Europe, stretching from the Baltic to the Black Sea, and it commanded yet greater influence after uniting with its western neighbor, the Kingdom of Poland, to form the Polish-Lithuanian Commonwealth. The Grand Duchy's huge territory included the great cities of Kiev, Vilnius, Riga, Minsk, and Brest. Despite being ahead of its time as an elective republic in an age of absolute monarchy, power struggles and foreign incursions led to its ultimate demise and forced partition by Russia, Prussia, and Austria in 1795. In this selection from a work *The Boston Globe* has called "commendably accessible, magisterial, and uncommonly humane," Davies chronicles these rich yet unfamiliar chapters in the history of modern Lithuania, Belarus, and Latvia with his signature acuity and verve.

**A Short History of Europe Pan Macmillan**

"In an era of growing anti-intellectualism, [Judt's] essays remind us of what we gain when we stick fast to high ethical and intellectual standards, and what is lost when we let them slip." —Mark Mazower, *Financial Times* "Scintillating journalism... This collection is a reminder of Judt's clear mind and prose and, as Homans says in her lovely introduction, his fidelity to hard facts and to honest appraisal of the modern scene." —Samuel Moyn, *The New York Times Book Review* In an age in which the lack of independent public intellectuals has often been sorely lamented, the historian Tony Judt played a rare and valuable role, bringing together history and current events, Europe and America, what was and what is with what should be. In *When the Facts Change*, Tony Judt's widow and fellow historian Jennifer Homans has assembled an essential collection of the most important and influential pieces written in the last fifteen years of Judt's life, the years in which he found his voice in the public sphere. Included are seminal essays on the full range of Judt's concerns, including Europe as an idea and in reality, before 1989 and thereafter; Israel, the Holocaust and the Jews; American hyperpower and the world after 9/11; and issues of social inclusion and social justice in an age of increasing inequality. Judt was at once most at home and in a state of what he called internal exile from his native England, from Europe, and from America, and he finally settled in New York—between them all. He was a historian of the twentieth century acutely aware of the dangers of ethnic exceptionalism, and if he was shaped by anything, it was the Jewish past and his own secularism. His essays on Israel ignited a firestorm debate for their forthright criticisms of Israeli government policies relating to the Palestinians and the occupied territories. Those crucial pieces are published here in book form for the first time, including an essay, never previously published, called "What Is to Be Done?" These pieces are suffused with a deep compassion for the Israeli dilemma, a compassion that instilled in Judt a sense of responsibility to speak out and try to find a better path, away from what he saw as a road to ruin. *When the Facts Change* also contains Judt's homages to the culture heroes who were some of his greatest inspirations: Amos Elon, François Furet, Leszek Kolakowski, and perhaps above all Albert Camus, who never accepted the complacent view that the problem of evil couldn't lie within us as well as outside us. Included here too is a magnificent two-part essay on the social and political importance of railway travel to our modern conception of a good society; as well as the urgent text of "What Is Living and What Is Dead in Social Democracy," the final public speech of his life, delivered from a wheelchair after he had been stricken with a terrible illness; and a tender and wise dialogue with his then-teenage son, Daniel, about the different outlooks and burdens of their two generations. To read *When the Facts Change* is to miss Tony Judt's voice terribly, but to cherish it for what it was, and still is: a wise, human, deeply informed view on our most pressing concerns, delivered in good faith.

From the bestselling author of *Europe: A History* comes a uniquely ambitious masterpiece that will thrill fans of lost civilizations. While Germany, Italy, France, and England dominate our conceptions of Europe, these modern states are relatively recent constructs. In this brilliant work of historical reconstruction, Norman Davies brings back to life the long-forgotten empire of Aragon, which once controlled the Western Mediterranean; the Grand Duchy of Lithuania, once the largest country in Europe, and the Kingdom of the Romans, founded by ancient Britons when neither England nor Scotland existed. In the tradition of Jared Diamond's *Guns, Germs, and Steel*, Davies subverts our established view of the past and urges us to reconsider the impetus for the rise and fall of nations.

It zooms in from the distant focus of Chapter One, which explores the first five million years of the continent's evolution, to the close focus of the last two chapters, which cover the twentieth century at roughly one page per year. From the ashes of World War II to the conflict over Iraq, William Hitchcock examines the miraculous transformation of Europe from a deeply fractured land to a continent striving for stability, tolerance, democracy, and prosperity. Exploring the role of Cold War politics in Europe's peace settlement and the half century that followed, Hitchcock reveals how leaders such as Charles de Gaulle, Willy Brandt, and Margaret Thatcher balanced their nations' interests against the demands of the reigning superpowers, leading to great strides in economic and political unity. He re-creates Europeans' struggles with their troubling legacy of racial, ethnic, and national antagonism, and shows that while divisions persist, Europe stands on the threshold of changes that may profoundly shape the future of world affairs.
