Planetary Commodities are the materials and resources generated through Planetary Interaction. There are four tiers of planetary commodities produced in planetary interaction, each of which is used either in creating the next highest tier of commodity, or directly in another type of Industry as an input. Each type of planet has a mix of Raw Materials (sometimes called P0 commodities) which can be refined into basic Processed Materials, called P1 for short.

Eve Planetary Interaction Guide Advanced

Planetary Interaction (PI) allows you to produce NPC trade goods from Raw Materials you extract from a planet by building a colony on that planet. These Raw Materials can be processed in the colony into various NPC trade goods. The general expectation is that the NPCs will stop selling these goods soon, so the value of PI products will be at the mercy of the Player market.
