Statistical questions (video) | Khan Academy

In statistics, we try to make sense of the world by collecting, organizing, analyzing, and presenting large amounts of data. For example, you may survey your friends about what tv show is most popular, but the small sample size will not give you an accurate idea of what ALL 6th graders like to watch. To do this you must survey a cross section of students from all around the country and all ...

solutions reorient your old paradigms. NOW is the time to make today the first day of the rest of your life.

Same thing would have been true for this five. So this four and five, the middle is actually in between

these two. So when you have an even number of numbers like this, you take the middle two numbers,

this four and this five, and you take the mean of the two. So the mean of four and five is going to be four-

and-a-half.
