Evernote Every Day, by Jeremy Roberts, brings you more from Evernote. Through a series of practical, easy to follow guides you'll discover new and amazing ways to take the way you use Evernote to a whole new level. This book is a results of years of research and testing, tweaking, and process optimization by someone that wasn't sure what to do with Evernote at first, but now uses Evernote for everything, every day. From the basics of storing information from the web, to replacing an entire filing cabinet, to automating parts of the web to put Evernote to work for you automatically, it's all contained within this one book.

What others are saying: Daniel E Gold (Author of Evernote: The unofficial guide to capturing everything and getting things

done): "If you're looking to get started in Evernote, learn how to apply Evernote in your every day life, and in a way that doesn't talk down to you, then you need Jeremy's book! Jeremy's passion for how Evernote can help you pops right out of the page. His simple directions on how to get it started and get going makes you wonder what you ever did without his guide!" Mike Vardy (Writer - Talker - Productivityist): "If you're looking for a simple and accessible way to get into Evernote, this book is going to be right up your alley. Jeremy has crafted a great guide to get you started - and keep you going - with what can be one of most powerful tools in your productivity arsenal." Bojan Djordjevic (Productivity Blogger, Alpha Efficiency): "Jeremy pointed out some great use cases of Evernote, and if you are new to this game, this kind of material is the right way to get started. My personal favorite is diary, as it gave me motivation to scan my old physical leather notebook and immortalize it in Evernote."

Apple Maps. Robert Downey Jr. Detroit. These are a few examples of great things that just needed some hard work and a fresh look to really explode. After OS X Mavericks was met with indifference, many worried that future OS X updates would continue to be a steady stream of minor upgrades and tweaks. Continuing the new naming convention of Californian locations, the new iteration will be dubbed ' Yosemite ' after California ' s beloved national park, with no relation to a certain Looney Tunes character. With OS X Yosemite, Apple is showing the world that OS X is not doomed to incremental upgrades, and diligently went through everything " feature by feature, pixel by pixel " to create a totally new and improved makeover for an old friend. If you ' ve used any OS X version before, there ' s no way you ' ll feel totally lost as you forage through Yosemite but your computer will definitely look and feel like a brand new system. There are many new changes both aesthetic and mechanical, and this guide will take you through it all whether you're an OS X spring chicken or a grizzled Mac veteran. If this is your first Apple computer (congrats on making the jump by the way!), we will also detail how to switch everything over from your old PC, and show you the differences between Windows and Mac. If you are ready to learn the ins and outs of OS X Yosemite, grab a fresh cup of coffee (decaf if it ' s late) and let ' s get to work.
