The days of the image brands are over, and 'new marketing' has gone mainstream. The world's biggest companies are

pursuing a post-advertising strategy, moving away from advertising and investing in leading edge alternatives. In the vanguard of the revolution has been John Grant, co-founder of the legendary agency St. Luke's and author of "The New Marketing Manifesto," whose radical thinking has informed a generation. Now Grant is set to stun the industry again. In "The Brand Innovation Manifesto," he redefines the nature of brands, showing why old models and scales no longer work and revealing that the key to success today is impacting people's lifestyles (think Starbucks, iPod and eBay). At the heart of the book is the concept of the 'brand molecule' to which new cultural ideas can be constantly added to keep pace with change. Cataloguing 32 classes of idea, Grant presents a practical approach to mixing and matching them within your own market to develop new brand ideas - and new ideas for

existing brands.

Bestseller* The first definitive, unauthorized, behind-the-scenes cultural history of the Bachelor franchise, America's favorite guilty pleasure. For sixteen years and thirty-six seasons, the Bachelor franchise has been a mainstay in American TV viewers' lives. Since it premiered in 2002, the show's popularity and relevance have only grown—more than eight million viewers tuned in to see the conclusion of the most recent season of The Bachelor. Los Angeles Times journalist

Amy Kaufman is a proud member of Bachelor Nation and has a long history with the franchise—ABC even banned her from attending show events after her coverage of the program got a little too real for its liking. She has interviewed dozens of producers, contestants, and celebrity fans to give readers never-before-told details of the show ’ s inner workings: what it ’ s like to be trapped in the mansion “ bubble ” ; dark, juicy tales of producer manipulation; and revelations about the alcohol-fueled debauchery that occurs long before the Fantasy Suite. Kaufman also explores what our fascination means, culturally: what the show says about the way we view so-called ideal suitors; our subconscious yearning for fairy-tale romance; and how this enduring television show has shaped society ’ s feelings about love, marriage, and feminism by appealing to a

marriage plot that ’ s as old as the best of Jane Austen. Brand Innovation Manifesto Vintage

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in

training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. SOON TO BE A MAJOR MOTION PICTURE The definitive biography of the deeply complex and widely misunderstood matinee idol of Hollywood 's Golden Age.

Devastatingly handsome, broad-shouldered and clean-cut, Rock Hudson was the ultimate movie star. The embodiment of romantic masculinity in American film throughout the ' 50s and ' 60s, Hudson reigned supreme as the king of Hollywood. As an Oscar-nominated leading man, Hudson won acclaim for his performances in glossy melodramas (Magnificent Obsession), western epics (Giant) and blockbuster bedroom farces (Pillow Talk). In the ' 70s and ' 80s, Hudson successfully transitioned to television; his long-running series McMillan & Wife and a recurring role on Dynasty introduced him to a whole new generation of fans. The icon worshipped by moviegoers and beloved by his colleagues appeared to have it all. Yet beneath the suave and commanding star persona, there was an insecure, deeply conflicted, and all too

vulnerable human being. Growing up poor in Winnetka, Illinois, Hudson was abandoned by his biological father, abused by an alcoholic stepfather, and controlled by his domineering mother. Despite seemingly insurmountable obstacles, Hudson was determined to become an actor at all costs. After signing with the powerful but predatory agent Henry Willson, the young hopeful was transformed from a clumsy, tongue-tied truck driver into Universal Studio 's resident Adonis. In a more conservative era, Hudson 's wholesome, straight arrow screen image was at odds with his closeted homosexuality. As a result of his gay relationships and clandestine affairs, Hudson was continually threatened with public exposure, not only by scandal sheets like Confidential but by a number of his own partners. For years, Hudson dodged questions concerning

his private life, but in 1985 the public learned that the actor was battling AIDS. The disclosure that such a revered public figure had contracted the illness focused worldwide attention on the epidemic. Drawing on more than 100 interviews with co-stars, family members and former companions, All That Heaven Allows finally delivers a complete and nuanced portrait of one of the most fascinating stars in cinema history. Author Mark Griffin provides new details concerning Hudson 's troubled relationships with wife Phyllis Gates and boyfriend Marc Christian. And here, for the first time, is an in-depth exploration of Hudson 's classic films, including Written on the Wind, A Farewell to Arms, and the cult favorite Seconds. With unprecedented access to private journals, personal correspondence, and production files, Griffin pays homage to the idol whose life

and death had a lasting impact on American culture.

converted into a cultural centre, an old barn is made into a residential house. All around us we encounter buildings whose original purpose has rendered them obsolete, and which now offer space for new uses. The construction and building requirements confronting the architect are as varied and individual as the buildings themselves. This publication examines a wide range of realized examples, highlighting successful and innovative solutions, from the rehabilitation of preserved monuments to the renovation or renewal of existing buildings, from the reuse of a gothic monastery or the former industrial buildings of Fiat Lingotto to the renovation of structures made of pre-cast concrete panels. Introductory essays by specialist authors examine the economical, technical, historical aspects of the topic, and the projects presented are documented fully

with illustrations, plans and details which have been specially produced by the editorial department of **DETAIL.**
