Heartfelt, practical, accessible, spirited. Come alive to your Body Being the multi-faceted container that takes us everywhere we want to go and helps process everything that happens to us. Whether you wish to explore spiritual development, practice your own presence in the world, or simply live more richly, *Awakening Body Consciousness* was written for you. It links the teachings of scientist and sage, of Knowledge and Being, providing practical advice and exercises to help you cultivate a new level of body awareness. This seven-step path to vibrant physical, mental, and spiritual health unites body consciousness with the hearts own sense of truth and the minds best attention. Why seek spirit through the body? Because it is the nexus where soul and spirit connect with the ever-thrumming energy of life within us. Our DNA, our psyche, the hands that create and the minds that invent all are aspects of the living body and are dependent upon it. *Awakening Body Consciousness* combines ancient wisdom with cutting-edge science to reveal how our bodily presence, our sense of everyday presentness, can serve as a bridge toward the I-consciousness within us. Are we thinking animals? Are we minds dragging a body along behind us? What is mindfulness full of? Rooted in the authors decades of bodywork and studies of world religions and ritual practices, psychology and neuroscience, *Awakening Body Consciousness* forges a new path to developing conscious awareness. Through the practice of attention to our own presence-in-the-world, we are able to open ourselves to the experience of unity in body, mind and heart.

Food: can’t live with it or without it. We are bombarded with messages that the secret to health and weight loss can be unlocked with the right product or magic discipline, but we are getting neither thinner nor happier. Reports suggest that we are losing our battle with obesity, while the anxiety people experience in relationship with food increases. We are taught that bodies are fundamentally a problem to be solved, or worse, a war to be won, while a misguided worldview suggests that our food choices are of concern to us alone; an individual act of pleasure or consequences. Few resources speak to our food problem from a distinctly Christian perspective. Drawing on a rich assemblage of personal and collected stories grounded in the teachings of Jesus, *The Living Diet* offers a joyful alternative to the desperation and dissatisfaction that have become cultural norms for both eating and body image, inviting us to consider our choices in the context of community. Ancient wisdom yields a surprisingly modern response to the dieting dilemma, as well as to the realm of public, or popular, theology, helping the reader discover the real joy of eating and the true gift of embodied living. This book provides a systematic and interdisciplinary analysis of the published literature and practical initiatives on the sports-Christianity interface from both Protestant and Catholic perspectives. Within the context of this relatively new and rapidly expanding area of inquiry, this text offers an original contribution to the current literature for both undergraduate and postgraduate students and serves as a point of reference for academics from a wide range of related fields including theology and religious studies, psychology, history, sociology, philosophy, psychology, health-religion studies, and sports studies. The book will also be of interest to sports chaplains, those involved in sports ministry organizations, physical educators and sports coaches who wish to adopt a more critical and ‘holistic’ approach to their work. As modern-day sports are often entwined with commercial and political agendas, the book also provides an important response to the ‘win-at-all-costs’ and business orientated philosophy, which characterises much of contemporary sport practice, yet which cannot always be fully understood through secular inquiry. OLAF (the European Anti-Fraud Office) was established by the Commission in 1999, following the collapse of its predecessor UCLAF, and its role is to protect the financial interests of the EU and to fight fraud and corruption within the EU's institutions or within individual EU member states. Its efficiency and effectiveness are currently under review, and the Commission has brought forward a proposal designed to improve OLAF's operational efficiency, improve information flows and protect the rights of individuals under investigation. The Committee's report judges that this proposal is premature and unlikely to enhance OLAF's accountability or independence. It also notes that the future of OLAF has become entwined with the debate over the post of European Public Prosecutor, and that the Commission should not allow this to distract its focus from examining how OLAF can be made more effective in the fight against fraud. Don’t Settle for More Most of us know we own too much stuff. We feel the weight and burden of our clutter, and we tire of cleaning and managing and organizing. While excess consumption leads to bigger houses, faster cars, fancier technology, and cluttered homes, it never brings happiness. Rather, it results in a desire for more. It redirects our greatest passions to things that can never fulfill. And it distracts us from the very life we wish we were living. Live a better life with less. In *The More of Less*, Joshua Becker helps you... • Recognize the life-giving benefits of owning less • Realize how all the stuff you own is keeping you from pursuing your dreams • Craft a personal, practical approach to decluttering your home and life • Experience the joys of generosity • Learn why the best part of minimalism isn’t a clean house, it’s a full life The beauty of minimalism isn’t in what it takes away. It’s in what it gives. Make Room in Your Life for What You Really Want “Maybe you don’t need to own all this stuff.” After a casual conversation with his neighbor on Memorial Day 2008, Joshua Becker realized he needed a change. He was spending far too much time organizing possessions, cleaning up messes, and looking for more to buy. So Joshua and his wife decided to remove the nonessential possessions from their home and life. Eventually, they sold, donated, or discarded over 60 percent of what they owned. In exchange, they found a life of more freedom, more contentment, more generosity, and more opportunity to pursue the things that mattered most. The More of Less delivers an empowering plan for living more by owning less. With practical suggestions and encouragement to personalize your own minimalist style, Joshua Becker shows you why minimizing possessions is the best way to maximize life. Are you ready for less cleaning, less anxiety, and less stress in your life? Simplicity isn’t as complicated as you think. **Kiss Your Doctor Goodbye** Church Publishing

Few pastors or Christian writers have dared to approach the subject of how proper eating and an active lifestyle can affect how we serve God. Author Gary Thomas does just that. And he reaches all the way back to the apostle Paul, who wrote that we need to prime our bodies to become, "an instrument for noble purposes, made holy, useful to the Master and prepared to do any good work." To illustrate the body/soul correlation, Thomas presents engaging and diverse stories that include a young mom who got fit through volleyball and reaped spiritual rewards in her marriage, a 300-pound pastor who realized his obesity was eroding his ministry impact, and a woman who gained the spiritual strength to survive a contentious divorce by training for a marathon. In every instance, Thomas makes a direct connection between the physical challenge and its spiritual consequence.This book is a must read for anyone seeking new and compelling motivation for strengthening their bodies and fortifying their souls.
