This book contains such anecdotes as these:

1) Bob Zuppke coached the football Illini for years. In a discussion of football rules, someone described a play and asked whether the officials had made the right call. Before answering, however, Mr. Zuppke asked, "Which team made the foul-Illinois or the other one?" 2) At a Westminster Dog Show in Madison Square Garden, a woman was selling an expensive coat made for dogs. Saying "We want her dog to look as smart as madame," the saleslady held up a pink cocktail coat made out of embroidered silk with a lining of mohair. Sportswriter Robert Lipsyte asked her, "When would a dog wear that?" The saleslady replied, "After five o'clock." 3) Shannon Martin was six years old when she won an age-12-and-under roping contest, for which she was written up in the "Roping Sports News." Because she hadn't learned to read yet, she kept saying to her father, "Come on, Dad. Read it again."

The inspiring true story behind the weight-loss saga chronicled on NBC's blockbuster show, *The Biggest Loser*. There's no getting past it: the Morellis were a fat family. From cookie dough and pizza binges to extreme plastic surgeries, Ron, Becky, Mike and

Max Morelli experienced the swinging pendulum of weight loss that so many Americans know all too well. But when Ron and Mike were accepted as contestants on *The Biggest Loser*, the Morellis' lives changed forever. Ron, at 430 pounds, and 18-year-old Mike, at 388 pounds, made it to the final four, losing a whopping 399 pounds combined. *Fat Family/Fit Family* also tells the story of wife Becky and youngest son, Max-the story not seen on TV, but relatable to scores of American families, the story of what happens when two foodaholics meet, fall in love, get married and raise (almost inevitably) foodaholic kids. Sharing the eye-opening perspective of each family member, *Fat Family/Fit Family* chronicles the Morellis' amazing journey in dropping over 700 pounds together, from the emotional and physical struggles of obesity to the triumph of their newfound healthy lifestyle. Obesity doesn't just happen in a vacuum-it starts in homes like the Morellis, and it can end there, too. *Fat Family/Fit Family* is an ultimately inspiring story about the healing power of family.

In this remarkable sequel to his *Films of the Seventies: A Social History*, William J. Palmer examines more than three hundred films as texts that represent, revise, parody, comment upon, and generate discussion about major events, issues, and social trends of the eighties. Palmer defines the dialectic between film art and social history, taking as his theoretical model the "holograph of history" that originated from the New Historicist theories of Hayden White and Dominick LaCapra.

Combining the interests and methodologies of social history and film criticism, Palmer contends that film is a socially conscious interpreter and commentator upon the issues of contemporary social history. In the eighties, such issues included the war in Vietnam, the preservation of the American farm, terrorism,

nuclear holocaust, changes in Soviet-American relations, neoconservative feminism, and yuppies. Among the films Palmer examines are *Platoon*, *The Killing Fields*, *The River*, *Out of Africa*, *Little Drummer Girl*, *Kiss of the Spiderwoman*, *Silkwood*, *The Day After*, *Red Dawn*, *Moscow on the Hudson*, *Troop Beverly Hills*, and *Fatal Attraction*. Utilizing the principles of New Historicism, Palmer demonstrates that film can analyze and critique history as well as present it.

Understanding Liberal Democracy presents notable work by Nicholas Wolterstorff at the intersection between political philosophy and religion. Alongside his influential earlier essays, it includes nine new essays in which Wolterstorff develops original lines of argument and stakes out novel positions regarding the nature of liberal democracy, human rights, and political authority. Taken together, these positions are an attractive alternative to the so-called public reason liberalism defended by thinkers such as John Rawls. The volume will be of interest to philosophers, political theorists, and theologians, engaging a wide audience of those interested in how best to understand the nature of liberal democracy and its relation to religion.

Was I born unlucky, or was I just too naive? I was so young, barely old enough to understand the world and its cruelty while surrounded by people who took advantage of that. This is the story of how my innocence was exploited by the needs and selfishness of everyone around me and how I used my pretend life to overcome the obstacles I faced. I have miraculously made it into my senior years and can proudly relay how I survived a life that was riddled with great challenges and sadness. I am amazed by the capacity of the mind to create survival mechanisms and thankful to share the importance of perseverance.

The Colors covers the past three decades of the American art scene, a period during which the prevailing artistic fashion has shifted as often as the focus of the Whitney Biennial, when art and money, talent and celebrity have often been confused. During this period, figures such as Julian Schnabel, Jeff Koons, and Keith Haring have crossed over from the rarefied world of high art into popular culture, and art dealers, like Hollywood power agents, have often claimed as much attention as those they represented. Anthony Haden-Guest has moved within this world, known the players, and delivers here an authoritative and deliciously inside account. Focusing on the lives and personalities of the art world's main players, and with a sure critical component, Haden-Guest gives us vivid portraits of the period's key artists as they strive to fulfill their ambitions. He does justice as well to the machinations of those who have come

to control the larger drama -- the dealers, collectors, and museum curators. Filled with incredible anecdotes, dramatically told stories, and subtle critical assessments, True Colors tells the story of the art world that we have never heard before.

Alternate Reality: The Mostly True Story of How I Became a Sociopath

Beth Lisick started out as a homecoming princess with a Crisco-aided tan and a bad perm. And then everything changed.

Plunging headlong into America's deepest subcultures, while keeping both feet firmly planted in her parents' Leave It to Beaver values, Lisick makes her adult home on the fringe of mainstream culture and finds it rich with paradox and humor. drives a station wagon with a baby seat in the back, makes her own chicken stock, and attends ladies' luncheons. Lisick explains it all in her hilarious, irreverent, bestselling memoir, *Everybody into the Pool*. Find out how he ' s done it, and re-evaluate your assumptions about sociopaths by entering his Alternate Reality.
