MotorBoating Haynes Manuals N. America, Incorporated

* Outboard motor repair for the average guy * Fix up an old outboard and SAVE \$1000 or more compared to buying a new motor! With a little know-how and a few common tools, you can fix an old motor—bring it back from the dead. Sometimes all it takes is a squirt of WD-40 into the cylinder and a new spark plug. Or a new set of points and condensers—which do not require expert knowledge or black magic to install. Maybe the carburetor needs cleaning and adjusting. You can do it! Max E. Wawrzyniak III is an outboard motor guru. He advises you to find an old motor at a yard sale for \$100 or so (and he tells you exactly which ones to look for), and fix it up—rather than spending \$1500 or more on a new motor. He is a big fan of "cheap power." Get on the water with money left in your pocket. With a basic understanding of how these motors work, a little logical thinking, and a few hours' work, you can go boating for a fraction of what everyone else has to pay. Also—for the boater who already owns an outboard motor of any age—this book demystifies these internal-combustion marvels that can bring such frustration if they malfunction. You'll learn how they work, and the simple things you can do to keep them running forever. What Max teaches are not only money-saving skills, but can also be life-saving, as you will no longer be helpless in the face of engine trouble on the water. His clear instructions and over one hundred color photographs will make anyone into a capable outboard mechanic. INCLUDES: What to Buy, Where to Find It, Tools Needed and Where to Begin, The Ignition System, Carburetors, Water Pump Repairs, Recoil Starters, Fuel Tanks, Propellers, Lower Units, Emergency Shut-Down, Fuel Pump Conversion, Remote Controls: Shift and Throttle, Remote Control: Steering, Tiller Conversion, Trouble-Shooting, and Onboard Spares and Tools. This book has always been very popular and well-used in its print edition. Now it's available as an e-book so you can load it into your phone or tablet and always have this wealth of repair / maintenance information at your fingertips, even when out on your boat.

Popular Mechanics

Pobalscoil Chloich Cheannfhaola (P.C.C.) is a community school located in the Gaeltacht area of Falcarragh in the beautiful North West of Co. Donegal. Every year, 2nd-year students who participate in the Junior Certificate Schools Programme (JCSP), have the opportunity to get involved in the JCSP Make a Book exhibition. Students create a book based on a subject that is of interest to them and then display it alongside books created by students from schools all over the North West of Ireland. This wonderful showcase represents many hours of work by the students and their teachers and is a chance for students to exhibit their many skills and talents. Over the last few years, our school has been very fortunate to be able to collaborate with Pobal le Chéile, a local community development group in Falcarragh. This collaboration has been a very positive experience for the students and staff at P.C.C. and has served to help build links in the community. It has also given our JCSP students the opportunity to work with some of their greatly talented staff and learn so much through workshops, visits and talks. This year, Rang Eoin chose to create a digital book based around a tree

planting project they undertook. The idea for this project came about through a donation of trees to the school and community from "Trees on the Land" which is a charity and not-for-profit project from the Green Economy Foundation in collaboration with The Woodland Trust in Northern Ireland. As a JCSP librarian, it is always a proud moment when students see their finished book for the first time and can celebrate the fact that they are authors, no mean feat at the age just of 14 or 15 years old. Sarah Ball, JCSP Librarian
