Evolution And Classification Study Guide

Evolution, Natural Selection, Classification Study Guide

Evolution and Classification Study Guide. STUDY. PLAY. evolution. the gradual change in a species over time.

Natural selection (survival of the fittest) the process by which individuals that are better adapted to their environment are more likely to survive and reproduce than other members of the same species.

Evolution and Classification Study Guide Flashcards | Quizlet

Evolution and Classification Test. Darwin/Lamarck.

Darwin ' s observations: Usually the numbers of offspring produced are far greater than the ones that survive Natural resources are limited. This leads to a struggle for existence with only a fraction of offspring surviving to the next generation Slight variations (mutations) occur by chance within a population These variations are inheritable.
