Evolution and the Challenges of Modern Life The Lie: Evolution (25th Anniversary Edition: Revised and Expanded

A provocative exploration of the tension between our evolutionary history and our modern woes—and what we can do about

it. We are living through the most prosperous age in all of human history, yet we are listless, divided, and miserable. Wealth and comfort are unparalleled, but our political landscape is unmoored, and rates of suicide, loneliness, and chronic illness continue to skyrocket. How do we explain the gap between these truths? And how should we respond? For evolutionary biologists Heather Heying and Bret Weinstein, the cause of our troubles is clear: the accelerating rate of change in the modern world has outstripped the capacity of our brains and bodies to adapt. We evolved to live in clans, but today many people don't even know their neighbors' names. In our haste to discard outdated gender roles, we increasingly deny the flesh-and-blood realities of sex—and its ancient roots. The cognitive dissonance spawned by trying to live in a society we are not built for is killing us. In this book, Heying and Weinstein draw on decades of their work teaching in college classrooms and exploring Earth's most biodiverse ecosystems to confront today's pressing social ills—from widespread sleep deprivation and dangerous diets to damaging parenting styles and backward education practices. Asking the questions many modern people are afraid to ask, A Hunter-Gatherer's Guide to the 21st Century outlines a science-based worldview that will empower you to live a better, wiser life.

Evolution and the Myth of Creationism New Leaf Publishing Group  
In 1987 Ken Ham wrote what would become a prophetic warning to the Church about the destructive effects of compromise with evolutionary ideas, and how this compromise undermines Scriptural authority and erodes Christian confidence in the infallibility of God's Word. Today we have Christians not only confused when it comes to Genesis and age of the earth, but even the reality of Hell, Adam as a real person, and Christ's own words about creation, marriage and more are being debated in the pulpits across the world. In this special revised and updated edition, Ken Ham again takes the lead in pointing out the looming precipice the Church is rushing towards, how evolution and/or millions of years, is driving away young people of the faith, and the biblical solution that can change it!
