Michael Kies is proof that when life presents us with challenges it's the unreasonable person who makes progress and thrives. This book will show you how to take control and be in charge of your life. History is filled with people who had the courage to have unreasonable expectations, to do the unusual and the unexpected. The 'power of unreasonable' is the single most important galvanising force on the planet. If you feel you are not living to your full potential, get a little unreasonable and invest in this book; it may be the trigger you are looking for to step outside your comfort zone and create a better life.

**Student-Friendly Guide: Sail through Exams!** Hodder Gibson

Life under communism is cruel and inhumane. Commit the smallest political infraction, and the secret police will arrest you. The only ray of hope is the West, but getting out from communism is difficult. Communist countries have a "Berlin Wall" around them. It is a crime to escape by crossing the border illegally, and anyone caught is beaten and imprisoned, sometimes even shot. I was eighteen, and I was living in hell. However, I would rather have died than keep living as a communist slave. This is my story of what happened and how I reached freedom.

**Higher Geography: Practice Papers for SQA Exams** Lulu Press, Inc

Architecture of the Periphery in Chinese offers a comprehensive survey on the fine structure of the sentence peripheral domain in Mandarin Chinese from a

cartographic perspective. Different functional projections hosting sentence-final particles, implicit operators and other informational components are hierarchically ordered according to the "Subjectivity Scale Constraint" functioning at syntax-discourse interface. Three questions will be essentially addressed: What is the order? How to determine such an order? Why such an order? This research not only gives a thorough examination of the peripheral elements in Chinese but also improves the general understanding of the ordering issue in the left-periphery crosslinguistically. This book is aimed at scholars interested in Chinese syntax or generative syntax.

Each moment in your life comes with a purpose. Although the purpose at times is taken for granted, these moments, when they

arise, bring forth a significant meaning for one's destiny and destination in life. For example, imagine how every person in this world has passed through a moment, full of promises and opportunities, but when that moment passes, he or she has no way of knowing if it will ever rise again. Apparently, whatever the moment may be, our lives are defined by the energy, faith, belief, and action into bringing each moment to life so that it can transcend toward greater moments, dreams, and endeavors. Each moment, by all means, is vital, and the mark that one has left in this world will be measured by what he or she has achieved in the time allowed. Thus, what you do with your life today will define your dreams and destiny as each significant moment rises and the time that is given to it is taken away. This book will help you • Develop a greater sense of why each moment in life matters; • Believe in yourself to accomplish any impossible dream or goal; • Generate positive attitudes, faith, and unstoppable principles of action.
