Proceedings of the International Conference Theory and Applications in the Knowledge Economy TAKE 2017 Routledge
Foreword A famous Portuguese Poet once said around one hundred years ago; “ before I was born all the words that should save the Humanity had already been written., the only thing that was missing was to save Humanity. ” Fast forward to the 21st century services led and knowledge based economy, and we have myriads of theoretical study about the decisive assets — namely intangibles. Those analysis are made in several perspectives, namely Human Resources, Knowledge Management, Intellectual Capital, and also many sectorial perspectiveslike Trade, Economics, Logistics, Social Policy etc. However, today the question about the applicability of all these studies remains unsolved. So, it like, many of the words that will save the Knowledge Economy have already been written, all we need is to save the Knowledge Economy...Or is it not? The idea behind TAKE Conference was to provide a multidisciplinary forum in which those multiple perspectives will come together. We believe it is a fruitful operation and we intend to continue the exercise in the future. The problem of the relation between theory and practice in the knowledge economy is getting more important and not lessimportant with the development of the BRICS and other nations. TAKE main question will be one of the problems of the 21st century. Following the promising start of TAKE 2016 in Aveiro, Portugal, TAKE 2017 was organized by the Faculty of Economics of Zagreb University, around Prof. Blazenka Knezevic. I would like to thank her and her team for the massive effort in putting TAKE 2017 together. It will be a very nice and memorable conference. I would like also to thank the 5 keynotes, the special sessions and workshop organizes, the authors of the 60 papers and 5 posters, the stream leaders, the reviewers and the sponsors for the efforts. And to the 90 participants from 20 countries: Austria, Bosnia Herzegovina, Canada, Croatia, Germany, Hong Kong, Hungary, Netherlands, Mexico, Portugal, Poland, Romania, Russia, South Africa, Serbia, Slovakia, Spain, Thailand, United Kingdom, United States. A special word to Prof. Gaby Neumann from Wildau who organized the Proceedings. Let us make TAKE 2017 a great occasion and help save the knowledge economy a bit. Eduardo Tom é , Conference Chair Zagreb, July 2017

After being expelled from one school too many, Bernie Fineman got a job in a garage when he was thirteen years old. On his first day he hit the foreman across the face with a broom handle. Fifty years later he's still working in garages and still has a fiery temper, as anyone who has tried to cheat a customer or seen one of his many series for Discovery UK and Channel 5 will testify. Not for nothing is Bernie called the Original Motor Mouth.Growing up in the post-war East End with a welder for a mother and a bear-knuckle fighter for a father, life was tough in every sense. But as well as toughness, Bernie also inherited a determination and willingness to graft from his parents, and despite leaving school with no qualifications Bernie has risen to become one of the most respected and famous mechanics in the UK. This is the remarkable story of fifty years in the motor trade that has seen Bernie go from Kray Twins fixer to becoming indispensable to the Metropolitan Police, via South Africa, Bangladesh, the jungles of Central America and more. Dodgy motors and dodgy characters abound in this rollicking and unlikely ride.
