With roots in eugenics and other social-control programs, modern American environmentalism is not always as progressive as we would like to think. In *The Ecological Other*, Sarah Jaquette Ray examines the ways in which environmentalism can create social injustice through discourses of the body. Ray investigates three categories of ecological otherness: people with disabilities, immigrants, and Native Americans. Extending recent work in environmental justice ecocriticism, Ray argues that the expression of environmental disgust toward certain kinds of bodies draws problematic lines between ecological “subjects”—those who are good for and belong in nature—and ecological “others”—those who are threats to or out of place in nature. Ultimately, *The Ecological Other* urges us to be more critical of how we use nature as a tool of social control and to be careful about the ways in which we construct our arguments to ensure its protection. The book challenges long-standing assumptions in environmentalism and will be of interest to those in environmental literature and history, American studies, disability studies, and Native American studies, as well as anyone concerned with issues of environmental justice.

From the bestselling author of the acclaimed *Chaos and Genius* comes a thoughtful and provocative exploration of the big ideas of the modern era: Information, communication, and information theory. Acclaimed science writer James Gleick presents an eye-opening vision of how our relationship to information has transformed the very nature of human consciousness. A fascinating intellectual journey through the history of communication and information, from the language of Africa’s talking drums to the invention of written alphabets; from the electronic transmission of code to the origins of information theory, into the new information age and the current deluge of news, tweets, images, and blogs. Along the way, Gleick profiles key innovators, including Charles Babbage, Ada Lovelace, Samuel Morse, and Claude Shannon, and reveals how our understanding of information is transforming not only how we look at the world, but how we live. The Wind in the Willows is a children's novel by Scottish novelist Kenneth Grahame, first published in 1908. Alternatingly slow-moving and fast-paced, it focuses on four anthropomorphised animals: Mole, Rat (a European water vole), Toad, and Badger. They live in a pastoral version of Edwardian England. The novel is notable for its mixture of mysticism, adventure, morality, and camaraderie, and celebrated for its evocation of the nature of the Thames Valley.

Effective Evangelistic Churches HarperCollins
' . . . when the CityLink tolls were being established in Victoria, the Brethren argued unsuccessfully to then Kennett government minister Rob Maclellan that they should be exempted from paying tolls because, in the words of one witness, 'the e-TAGs or perhaps the toll gantries were instruments of the devil'. -Michael Bachelard, *The Agenewspaper Out of nowhere* in 2004, this obscure religious sect burst onto the political stage in Australia. Almost unheard of until then, the Exclusive Brethren was suddenly spending up big in election advertising in support of conservative political parties. But its members were shy to the point of paranoia about who they were - preferring, as they said, to 'fly under the radar'. Brethren members assiduously lobbied politicians, but did not vote. And they were very close to then prime minister John Howard. What exactly was their interest in politics? Why did their activism suddenly blossom almost simultaneously across the world, from Canada and the United States to Sweden and Australia? And how did a small, fringe group whose values are utterly detached from those of most Australians infiltrate the highest office in the land? Michael Bachelard, formerly an investigative reporter at *The Age* and now at *The Sunday Age*, has been uncovering the facts about this secretive sect for more than two years. The results of his inquiries are the most comprehensive book ever written about the Exclusive Brethren. It's a fascinating story of politics and power. But it's a very human story, too - of damaged lives, that broken families, and of hurt and anger that stretches back decades.

Refugee Houghton Mifflin Harcourt
"This crazy, gorgeous family novel" written at the end of the Great Depression "is one of the great literary achievements of the twentieth century" (Jonathan Franzen, *The New York Times*). First published in 1940, *The Man Who Loved Children* was rediscovered in 1965 thanks to the poet Randall Jarrell's eloquent introduction (included in this ebook edition), which compares Christina Stead to Leo Tolstoy. Today, it stands as a masterpiece of dysfunctional family life. In a country crippled by the Great Depression, Sam and Henny Pollit have too much—too much contempt for one another, too many children, too much strain under endless obligation. Flush with ego and chilling charisma, Sam torments and manipulates his children in an esoteric world of his own imagining. Henny looks on desperately, all too aware of the madness at the root of her husband's behavior. And Louie, the damaged, precocious adolescent girl at the center of their clashes, is the "ugly duckling" whose struggle will transfix contemporary readers. Named one of the best novels of the twentieth century by *Newsweek*, Stead's semiautobiographical work reads like a Depression-era *The Glass Castle*. In the *New York Times*, Jonathan Franzen wrote of this classic, "I carry it in my head the way I carry childhood memories; the scenes are of such precise horror and comedy that I feel I didn't read the book so much as live it."

Winner of the 2012 Pulitzer Prize * Poet Laureate of the United States * * A New York Times Notable Book of 2011 and New York Times Book Review Editors' Choice * * A New Yorker, Library Journal and Publishers Weekly Best Book of the Year * New poetry by the award-winning poet Tracy K. Smith, whose "lyric brilliance and political impulses never falter" (Publishers Weekly, starred review) You lie there kicking like a baby, waiting for God himself To lift you past the rungs of your crib. What Would your life say if it could talk? –from "No Fly Zone" With allusions to David Bowie and interplanetary travel, *Life on Mars* imagines a soundtrack for the universe to accompany the discoveries, failures, and oddities of human

existence. In these brilliant new poems, Tracy K. Smith envisions a sci-fi future sucked clean of any real dangers, contemplates the dark matter that keeps people both close and distant, and revisits the kitschy concepts like "love" and "illness" now relegated to the Museum of Obsolescence. These poems reveal the realities of life lived here, on the ground, where a daughter is imprisoned in the basement by her own father, where celebrities and pop stars walk among us, and where the poet herself loses her father, one of the engineers who worked on the Hubble Space Telescope. With this remarkable third collection, Smith establishes herself among the best poets of her generation.

Virginia Woolf dreamed of the Day of Judgment. The "great conquerors and lawyers and statesmen" come to receive their rewards - crowns, laurels, names carved on marble. But, when he sees people coming with books under their arms, God turns to Peter and says: "Look, those need no reward. We have nothing to give them here. "They have loved reading." And this is the essence of her essay - sheer love for the written word: a joy in exploring the thoughts and imaginings of the author. If you sometimes get bogged down in a book, Woolf has produced the perfect self-help manual and motivational guide to reading. If you enjoyed 'How Should One Read a Book?', try 'How to Read a Book: The Classic Guide to Intelligent Reading', by Mortimer J Adler. "To read a novel is a difficult and complex art," says Virginia Woolf. Adeline Virginia Woolf (1882-1941) made an impact during her life, but her fame grew in the decades after her death. The English writer helped launch the use of stream-of-consciousness in literature and was a pioneer of 20th century modernism. Arguably her greatest legacy, though, comes from how her writing helped to inspire the feminist movements of the second half of the 20th century. Along with members of her family and other authors, Woolf helped found the Bloomsbury Group. After she married the political theorist and author Leonard Woolf in 1912, they went on to found the Hogarth Press. Virginia also had a long relationship with the writer Vita Sackville-West. The affair featured in the 2018 movie *Vita and Virginia*, starring Gemma Arterton and Elizabeth Debicki. He best-known works include the novels 'Mrs Dalloway', 'To the Lighthouse' and 'Orlando'.

Behind the Exclusive Brethren Vintage
A glimpse into a beloved novelist’s inner world, shaped by family, art, and literature. In her fiction, Claire Messud "has specialized in creating unusual female characters with ferocious, imaginative inner lives" (Ruth Franklin, *New York Times Magazine*). Kant’s Little Prussian Head and Other Reasons Why I Write opens a window on Messud’s own life: a peripatetic upbringing; a warm, complicated family; and, throughout it all, her devotion to art and literature. In twenty-six intimate, brilliant, and funny essays, Messud reflects on a childhood move from her Connecticut home to Australia; the complex relationship between her modern Canadian mother and a fiercely single French Catholic aunt; and a trip to Beirut, where her pied-noir father had once lived, while he was dying. She meditates on contemporary classics from Kazuo Ishiguro, Teju Cole, Rachel Cusk, and Valeria Luiselli; examines three facets of Albert Camus and *The Stranger*; and tours her favorite paintings at Boston’s Museum of Fine Arts. In the luminous title essay, she explores her drive to write, born of the magic of sharing language and the transformative powers of “a single successful sentence.” Together, these essays show the inner workings of a dazzling literary mind. Crafting a vivid portrait of a life in celebration of the power of literature, Messud proves once again "an absolute master storyteller" (Rebecca Carroll, *Los Angeles Times*).

The Book Thief Knopf Books for Young Readers

A luminous, powerful novel that establishes Rachel Cusk as one of the finest writers in the English language A man and a woman are seated next to each other on a plane. They get to talking—about their destination, their careers, their families. Grievances are aired, family tragedies discussed, marriages and divorces analyzed. An intimacy is established as two strangers contrast their own fictions about their lives. Rachel Cusk's Outline is a novel in ten conversations. Spare and stark, it follows a novelist teaching a course in creative writing during one oppressively hot summer in Athens. She leads her students in storytelling exercises. She meets other visiting writers for dinner and discourse. She goes swimming in the Ionian Sea with her neighbor from the plane. The people she encounters speak volubly about themselves: their fantasies, anxieties, pet theories, regrets, and longings. And through these disclosures, a portrait of the narrator is drawn by contrast, a portrait of a woman learning to face a great loss. Outline takes a hard look at the things that are hardest to speak about. It brilliantly captures conversations, investigates people's motivations for storytelling, and questions their ability to ever do so honestly or unselfishly. In doing so it bares the deepest impulses behind the craft of fiction writing. This is Rachel Cusk's finest work yet, and one of the most startling, brilliant, original novels of recent years. Americans have built an empire on the idea of “race,” a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? Between the World and Me is Ta-Nehisi Coates’s attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of

revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children’s lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, Between the World and Me clearly illuminates the past, bracingly confronts our present, and offers a transcendent vision for a way forward.
