A step-by-step guidebook for understanding—and implementing—integrated financial risk measurement and management The Fundamentals of Risk Measurement introduces the state-of-the-art tools and practices necessary for planning, executing, and maintaining risk management in today 's volatile financial environment.

This comprehensive book provides description and analysis of topics including: Economic capital Risk adjusted return on capital (RAROC) Shareholder Value Added (SVA) Value at Risk (VaR) Asset/liability management (ALM) Credit risk for a single facility Credit risk for portfolios Operating risk Inter-risk diversification The Basel Committee Capital Accords The banking world is driven by risk. The Fundamentals of Risk Measurement shows you how to quantify that risk, outlining an integrated framework for risk measurement and management that is straightforward, practical for implementation, and based on the realities of today 's tumultuous global marketplace. " Banks make money in one of two ways: providing services to customers and taking risks. In this book, we address the business of making money by taking risk.... " —From the Introduction In The Fundamentals of Risk Measurement, financial industry veteran Chris Marrison examines what banks must do to succeed in the business of making money by taking risk. Encompassing the three primary areas of banking risk—market, credit, and operational—and doing so in a uniquely intuitive, step-by-step format, Marrison provides hands-on details on the primary tools for financial risk measurement and management, including: Plain-English evaluation of specific risk measurement tools and techniques Use of Value at Risk (VaR) for assessment of market risk for trading operations Asset/liability management (ALM) techniques, transfer pricing, and managing market and liquidity risk The many available methods for analyzing portfolios of credit risks Using RAROC to compare the risk-adjusted profitability of businesses and price transactions In addition, woven throughout The Fundamentals of Risk Measurement are principles underlying the regulatory capital requirements of the Basel Committee on Banking Supervision, and what banks must do to understand and implement them. The requirements are defined, implications of the New Capital Accord are presented, and the major steps that a bank must take to implement the New Accord are discussed. The resulting thumbnail sketch of the Basel Committee, and specifically the New Capital Accord, is valuable as both a ready reference and a foundation for further study of this important initiative. Risk is unavoidable in the financial industry. It can, however, be measured and managed to provide the greatest risk-adjusted return, and limit the negative impacts of risk to a bank 's shareholders as well as potential borrowers and lenders. The Fundamentals of Risk Management provides risk managers with an approach to risk-taking that is both informed and prudent, one that shows operations managers how to control risk exposures as it allows decision-making executives to direct resources to opportunities that are expected to create maximum return with minimum risk. The result is today 's most complete introduction to the business of risk, and a valuable reference for anyone from the floor trader to the officer in charge of overseeing the entire risk management operation.

English Result MP Publishing

This work presents funny, strange and possibly true tales from Harry the Polis. Harry Morris is out to show a side of our industrious police force that we don't often see - the lighter side. His time with the Glasgow and Strathclyde constabulary, or 'polis' for short, hasn't robbed Harry of his sense of humour, and every wily witness, cocky con, and sarcastic sergeant he ever rubbed up against is here in page after page of humorous stories. Full of hilarious anecdotes, oddball characters, quick comebacks and unlikely excuses, "Even the Lies are True" shows true Glaswegian humour at its finest. Every funny tale - tall and true - of Harry's twenty-nine years police career is either here, or yet to come in future Harry the Polis books like "Even More Lies" and "Nothing Like the Truth" - and there's no shortage of laughs in these hilarious stories from the rank and file. Already described by Alex Dickson of Radio Clyde as 'classics of our time' and by Bob Shields of the Daily Record as 'a must read for anyone who likes to walk about with a grin on their face', "Even the Lies are True" is sure to arrest you with its irrepressible mirth.

My Anxious Mind Prentice Hall

A shocking insider's look at how global giants conspire to obscure the truth and manipulate our minds. Marketing visionary Martin Lindstrom has been on the front lines of the branding wars for over twenty years. Here, he turns the spotlight on his own industry, drawing on all he has witnessed behind closed doors, exposing for the first time the full extent of the psychological tricks and traps that companies devise to win our hard-earned dollars. Picking up from where Vance Packard's bestselling classic, *The Hidden Persuaders*, left off more than half-a-century ago, Lindstrom reveals: New findings that reveal how advertisers and marketers

intentionally target children at an alarmingly young age - starting when they are still in the womb! Shocking results of an fMRI study which uncovered what heterosexual men really think about when they see sexually provocative advertising (hint: it isn't their girlfriends). How marketers and retailers stoke the flames of public panic and capitalize on paranoia over global contagions, extreme weather events, and food contamination scares. The first ever neuroscientific evidence proving how addicted we all are to our iPhones and our Blackberry's (and the shocking reality of cell phone addiction - it can be harder to shake than addictions to drugs and alcohol). How companies of all stripes are secretly mining our digital footprints to uncover some of the most intimate details of our private lives, then using that information to target us with ads and offers 'perfectly tailored' to our psychological profiles. How certain companies, like the maker of one popular lip balm, purposely adjust their formulas in order to make their products chemically addictive. What a 3-month long guerrilla marketing experiment, conducted specifically for this book, tells us about the most powerful hidden persuader of them all. And much, much more. This searing expose introduces a new class of tricks, techniques, and seductions - the Hidden Persuaders of the 21st century- and shows why they are more insidious and pervasive than ever.

Even the Lies are True Manual of Inpatient Psychiatry

The Turbocharge Your GRE Series consists of 13 guides that cover everything you need to know for a great score on the GRE. Widely respected among GRE educators worldwide, Manhattan Review's GRE prep books offer the most professional GRE instruction available anywhere. Now in its updated 3rd edition, the full series is carefully designed to provide GRE test-takers with exhaustive GRE preparation for optimal test scores. Manhattan Review's GRE prep books teach you how to prepare for each of the different GRE testing areas with a thorough instructional methodology that is rigorous yet accessible and enjoyable. You'll learn everything necessary about each test section in order to receive your best possible GRE scores. The full series covers GRE verbal, quantitative, and writing concepts from the most basic through the most advanced levels, and is therefore a great study resource for all stages of GRE preparation. Students who work through all books in the series significantly improve their knowledge of GRE subject matter and learn the most strategic approaches to taking and vanquishing the GRE.

This much-needed reference equips electrical engineers, designers, and researchers in the microwave industry with comprehensive, up-to-date information on the theoretical principles and practical applications of dielectric integrated guides and circuits.

Manual of Gynecology Atomic Dog Pub Incorporated

" James Baldwin meets Aldous Huxley " in this " highly original " speculative fable (Chicago Tribune). Nominated for the Hurston/Wright Legacy Award in Fiction In a post-human world, creatures called oafs keep humanlike " mans " as beloved pets. One day, a poor boy oaf brings home a man, whom he hides under his bed in the hopes his parents won ' t find out . . . " Much like Pierre Boulle ' s 1963 novel Planet of the Apes, this novel is a sardonic parable on the nature and destiny of the species. A nimble fable whose bold narrative experiment is elevated by its near-biblical language and affectionate embrace of our inherent flaws. " —Kirkus Reviews " An imaginative and honest epic, weaving together biblical stories, fantasy, poetry, and fairy tales with a touch of realism. . . . Allen asks us to question the assumptions, -isms, and contradictions of the modern world. . . . Recalling the humanitarian concerns of Octavia Butler ' s Fledgling and the poetry of Ovid ' s Metamorphosis [sic], this book will appeal to readers of literary fiction and fantasy. " —Library Journal " Imaginative, versatile, and daring, Allen raids the realms of myth and fairy tales in this topsy-turvy speculative fable. . . . With canny improvisations on ' Jack and the Beanstalk, ' the ' Epic of Gilgamesh, ' and Alice in Wonderland, Allen sharpens our perceptions of class divides, racism, enslavement, and abrupt and devastating climate change to create a delectably adventurous, wily, funny, and wise cautionary parable. " —Booklist " It is one thing to devise a fable dealing so adroitly with such concepts as racism, war, religion, and the very nature of civilization itself, but Preston ' s true triumph is the infusion of each page and every astonishing episode with palpable emotional resonance. " —Les Standiford, New York Times — bestselling author of Last Train to Paradise A Chicago Tribune Noteworthy Fiction Pick

EVE: The Emyrean Age Black & White Publishing

Annotation. Business and Corporations Law 4th edition introduces students to the foundations of the Australian legal system and the principles that govern contract and corporations law, business structures, and management of companies. It provides an overview of financial reporting and auditing and the foundation concepts pertaining to receivership, voluntary administration and liquidation. This book also explains in clear and plain language the nature of corporate membership and the duties of directors tasked with running the business affairs of the company. To support learning of course content within the broader business context, this title includes chapter summaries, margin notes, key cases and legislation, diagrams and flowcharts. It also comes with a suite of online resources for both students and lecturers. Features: Chapters 8, 9, 10 and 11 have been revised extensively, with some material being redistributed between chapters to achieve parity across the book 's twelve-chapter format New material on directors, company secretaries, equity versus debt financing, shares and debentures, oppressive conduct and the whistleblowing protection regime has been added Additional internet references for further reading and end-of-chapter questions are included where appropriate.

Every Boy Should Have a Man Oxford University Press

The first novel based on the wildly popular role playing game EVE Online, EVE: The Emyrean Age brings this compelling science fiction environment to life. A clone with no name or past awakens to a cruel existence, hunted mercilessly for crimes he may never know; yet he stands close to the pinnacle of power in New Eden. A disgraced ambassador is confronted by a mysterious woman who knows everything about him, and of the sinister plot against his government; his actions will one day unleash the vengeful wrath of an entire civilization. And among the downtrodden masses of a corporation-owned world, a man named Tibus Heth is about to launch a revolution that will change the course of history. The confluence of these dark events will lead humanity towards a tragic destiny. The transcendence of man to the dream of immortality has bred a quest for power like none before it; empires spanning across thousands of stars will clash in the depths of space and on the worlds within. Those who stand before the tides of war, willingly or not, must face the fundamental choices that have been with man for tens of thousands of years, unchanged since the memory of Earth was lost. This is EVE, The Emyrean Age. A test of our convictions and the will to survive. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Discusses common anxieties and outlines several tools and techniques for dealing with phobias, anxieties, and panic attacks.

Evaluation for Substituted Judgement Corwin Press

A hands-on guide to making valuable decisions from data using advanced data mining methods and techniques. This second installment in the *Making Sense of Data* series continues to explore a diverse range of commonly used approaches to making and communicating decisions from data. Delving into more technical topics, this book equips readers with advanced data mining methods that are needed to successfully translate raw data into smart decisions across various fields of research including business, engineering, finance, and the social sciences.

Following a comprehensive introduction that details how to define a problem, perform an analysis, and deploy the results, *Making Sense of Data II* addresses the following key techniques for advanced data analysis: **Data Visualization** reviews principles and methods for understanding and communicating data through the use of visualization including single variables, the relationship between two or more variables, groupings in data, and dynamic approaches to interacting with data through graphical user interfaces. **Clustering** outlines common approaches to clustering data sets and provides detailed explanations of methods for determining the distance between observations and procedures for clustering observations. **Agglomerative hierarchical clustering**, **partitioned-based clustering**, and **fuzzy clustering** are also discussed. **Predictive Analytics** presents a discussion on how to build and assess models, along with a series of predictive analytics that can be used in a variety of situations including principal component analysis, multiple linear regression, discriminate analysis, logistic regression, and Naïve Bayes. **Applications** demonstrates the current uses of data mining across a wide range of industries and features case studies that illustrate the related applications in real-world scenarios. Each method is discussed within the context of a data mining process including defining the problem and deploying the results, and readers are provided with guidance on when and how each method should be used. The related Web site for the series (www.makingsenseofdata.com) provides a hands-on data analysis and data mining experience. Readers wishing to gain more practical experience will benefit from the tutorial section of the book in conjunction with the Traceis™ software, which is freely available online. With its comprehensive collection of advanced data mining methods coupled with tutorials for applications in a range of fields, *Making Sense of Data II* is an indispensable book for courses on data analysis and data mining at the upper-undergraduate and graduate levels. It also serves as a valuable reference for researchers and professionals who are interested in learning how to accomplish effective decision making from data and understanding if data analysis and data mining methods could help their organization.

Evaluating the Impact of Your Library Routledge

Assessing impact is increasingly critical to the survival of services: managers now require comprehensive information about effectiveness, especially in relation to users. Outlining a rigorously tested approach to library evaluation and offering practical tools and highly relevant examples, this book enables LIS managers to get to grips with the slippery concept of service impact and to address their own impact questions in their planning. The 2nd edition is fully updated to include international approaches to qualitative library evaluation, new international research, and current debates on the evolving nature of evaluation, as well as reflections on the importance of involving stakeholders and of evaluation to guide advocacy. Key topics include:

- The demand for evidence
- Getting to grips with impact
- The research base of this work
- Putting the impact into planning
- Getting things clear: objectives
- Success criteria and impact indicators: how you know you are making a difference
- Making things happen: activities and process indicators
- Thinking about evidence
- Gathering and interpreting evidence
- Taking stock, setting targets and development planning
- Doing national or international evaluation
- Where do we go from here?

Readership: Practising library and information service managers and policy makers in the field. LIS policy shapers and managers in public, education (schools, further and higher education), health and special libraries and information services working in any country or internationally and people engaged in professional education in the field such as lecturers or students.

Magnetism McGraw Hill Professional

EVERGREEN combines carefully crafted instruction, high-interest readings, and student models with numerous sequenced practices. This two-volume EVERGREEN COMPACT provides a convenient and portable alternative for instructors who prefer smaller-trim books for their students. The Evergreen Compact instruction book contains all instruction, writing assignments, art, and readings in the regular Evergreen Ninth Edition, but the practices have been moved to the Evergreen Compact Workbook; the workbook contains all practice exercises and visual images that relate to the practices. Each book has its own Annotated Instructor's Edition that provides answers and marginal annotations, Teaching Tips, ESL Tips, and Learning Styles Tips. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
