Alexa Chung's IT: the Top Ten Bestseller from the international fashion muse and Vogue contributing editor Now a Penguin paperback, this one-off collection of Alexa Chung's writing, doodles and photographs combines stories of early style inspirations such as her grandpa and the Spice Girls with discussion of figures of obsession like Jane Birkin and Annie Hall, reflecting on heartbreak, how to get dressed in the morning, the challenges of taking a good selfie, and more. Interspersed with pages from Alexa's notebooks and many a photo of a good night out, It is now perfectly sized for any bag - handbag or otherwise. Witty, charming and with

a refreshingly down-to-earth attitude, It is a must-have for anyone who loves fashion, worries about growing up, or loves just about everything Alexa Chung. 'If you love Alexa Chung, buy it. If you are interested in fashion and style, buy it. If you're after a book full of pretty pictures and inspo, buy it' - Cosmopolitan Alexa Chung is a model and contributing editor to British Vogue. The recipient of numerous style awards, Alexa has won the prestigious British Style Award (voted for by the public) three years in a row. She currently lives in New York City.

Essentials of Paramedic Care Wiley-Interscience

- A supplementary guide for students who are learning how to evaluate reports of empirical research published in academic journals.
- Your students will learn the practical aspects of evaluating research, not just how to apply a laundry list of technical terms from their textbooks.
- Each chapter is organized around evaluation questions. For each question, there is a concise explanation of how to apply it in the evaluation of research reports.
- Numerous examples from journals in the social and behavioral sciences illustrate the application of the evaluation questions. Students see actual examples of strong and weak features of published reports.
- Commonsense models for evaluation combined with a lack of jargon make it possible for students to start evaluating research articles the first week of class.
- The structure of this book enables students to work with confidence while evaluating articles for homework.
- Avoids oversimplification in the evaluation process by describing the nuances that may make an article publishable even though it has serious methodological flaws. Students learn when and why certain types of flaws may be tolerated. They learn why evaluation should not be performed mechanically.
- This book received very high student evaluations when field-tested with students just beginning their study of research methods.
- Contains more than 60 new examples from recently published research. In addition, minor changes have been made throughout for consistency with the latest edition of the

Publication Manual of the American Psychological Association.

The first novel based on the wildly popular role playing game EVE Online, EVE: The Emyrean Age brings this compelling science fiction environment to life. A clone with no name or past awakens to a cruel existence, hunted mercilessly for crimes he may never know; yet he stands close to the pinnacle of power in New Eden. A disgraced ambassador is confronted by a mysterious woman who knows everything about him, and of the sinister plot against his government; his actions will one day unleash the vengeful wrath of an entire civilization. And among the downtrodden masses of a corporation-owned world, a man named Tibus Heth is about to launch a revolution that will change the course of history. The confluence of these dark events will lead humanity towards a tragic destiny. The transcendence of man to the dream of immortality has bred a quest for power like none before it; empires spanning across thousands of stars will clash in the depths of space and on the worlds within. Those who stand before the tides of war, willingly or not, must face the fundamental choices that have been with man for tens of thousands of years, unchanged since the memory of Earth was lost. This is EVE, The Emyrean Age. A test of our convictions and the will to survive. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Forensic mental health assessment (FMHA) has grown into a specialization informed by research and professional guidelines. This series presents up-to-date information on the most important and frequently conducted forms of FMHA. The 19 topical volumes address best approaches to practice for particular types of evaluation in the criminal, civil, and juvenile/family areas. Each volume contains a thorough discussion of the relevant legal and psychological concepts, followed by a step-by-step description of the assessment process from preparing for the evaluation to writing the report and testifying in court. Volumes include the following helpful features: Boxes that zero in on important information for use in evaluations Tips for best practice and cautions against common pitfalls Highlighting of relevant case law and statutes Separate list of assessment tools for easy reference Helpful glossary of key terms for the particular topic In making recommendations for best practice, authors consider empirical support, legal relevance, and consistency with ethical and professional standards. These volumes offer invaluable guidance for anyone involved in conducting or using forensic evaluations. This book considers those legal, ethical and assessment issues that arise when forensic mental health professionals are asked to evaluate the capacity of adults to make independent decisions about the management of their personal and financial affairs. As our population ages, the competence of those who are elderly and mentally infirmed may be

challenged more and more frequently, and this book will be an invaluable resource for those involved in assessing that competence.

A hands-on guide to making valuable decisions from data using advanced data mining methods and techniques This second installment in the Making Sense of Data series continues to explore a diverse range of commonly used approaches to making and communicating decisions from data. Delving into more technical topics, this book equips readers with advanced data mining methods that are needed to successfully translate raw data into smart decisions across various fields of research including business, engineering, finance, and the social sciences. Following a comprehensive introduction that details how to define a problem, perform an analysis, and deploy the results, Making Sense of Data II addresses the following key techniques for advanced data analysis: Data Visualization reviews principles and methods for understanding and communicating data through the use of visualization including single variables, the relationship between two or more variables, groupings in data, and dynamic approaches to interacting with data through graphical user interfaces. Clustering outlines common approaches to clustering data sets and provides detailed explanations of methods for determining the distance between observations and procedures for clustering observations. Agglomerative hierarchical clustering, partitioned-based clustering, and fuzzy clustering are also discussed. Predictive Analytics presents a discussion on how to build and assess models, along with a series of predictive analytics that can be used in a variety of situations including principal component analysis, multiple linear regression, discriminate analysis, logistic regression, and Naïve

Bayes. Applications demonstrates the current uses of data mining across a wide range of industries and features case studies that illustrate the related applications in real-world scenarios. Each method is discussed within the context of a data mining process including defining the problem and deploying the results, and readers are provided with guidance on when and how each method should be used. The related Web site for the series (www.makingsenseofdata.com) provides a hands-on data analysis and data mining experience. Readers wishing to gain more practical experience will benefit from the tutorial section of the book in conjunction with the TraceisTM software, which is freely available online. With its comprehensive collection of advanced data mining methods coupled with tutorials for applications in a range of fields, Making Sense of Data II is an indispensable book for courses on data analysis and data mining at the upper-undergraduate and graduate levels. It also serves as a valuable reference for researchers and professionals who are interested in learning how to accomplish effective decision making from data and understanding if data analysis and data mining methods could help their organization.

Assessing impact is increasingly critical to the survival of services: managers now require comprehensive information about effectiveness, especially in relation to users. Outlining a rigorously tested approach to library evaluation and offering practical tools and highly relevant examples, this book enables LIS managers to get to grips with the slippery concept of service impact and to address their own impact questions in their planning. The 2nd edition is fully updated to include international approaches to qualitative library evaluation, new international research, and current debates on the evolving nature of evaluation, as well as reflections on the importance of involving stakeholders and of evaluation to guide advocacy. Key topics include:

- The demand for evidence
- Getting to grips with impact
- The research base of this work
- Putting the impact into planning
- Getting things clear: objectives
- Success criteria and impact indicators: how you know you are making a difference
- Making things happen: activities and process indicators
- Thinking about evidence
- Gathering and interpreting evidence
- Taking stock, setting targets and development planning
- Doing national or international evaluation
- Where do we go from here?

Readership: Practising library and information service managers and policy makers in the

field. LIS policy shapers and managers in public, education (schools, further and higher education), health and special libraries and information services working in any country or internationally and people engaged in professional education in the field such as lecturers or students.

An exquisitely romantic debut novel that captures the longing of lost—and sometimes found—love It is the mid-1960s in a small seaside town in Croatia. Two children, Luka and Dora, meet on their first day of kindergarten. Luka faints the first time he sees Dora and she wakes him with a kiss. The two become inseparable. Over the next few years, they wander the shores of their town, lying on their special rock by the sea as Luka paints—until Dora's parents move to Paris. Bereft, Luka becomes a solitary young man, prey to the needs of his family, but a promising painter. In Paris, Dora blossoms and becomes a successful actress. When Luka comes to Paris for a show of his paintings, a chance encounter brings them together. Now adults, they fall back in love, and their feelings are given resonance by a shared adoration of Pablo Neruda. Timing and fate, however, seem determined to keep them apart. Like The Solitude of Prime Numbers and One Day, Nataša Dragnić's Every Day, Every Hour is a haunting tale of star-crossed love that will utterly entrance readers with the rhythmic beauty of its language and ineffable air of expectation and heartache.

This work presents funny, strange and possibly true tales

from Harry the Polis. Harry Morris is out to show a side of our industrious police force that we don't often see - the lighter side. His time with the Glasgow and Strathclyde constabulary, or 'polis' for short, hasn't robbed Harry of his sense of humour, and every wily witness, cocky con, and sarcastic sergeant he ever rubbed up against is here in page after page of humorous stories. Full of hilarious anecdotes, oddball characters, quick comebacks and unlikely excuses, "Even the Lies are True" shows true Glaswegian humour at its finest. Every funny tale - tall and true - of Harry's twenty-nine years police career is either here, or yet to come in future Harry the Polis books like "Even More Lies" and "Nothing Like the Truth" - and there's no shortage of laughs in these hilarious stories from the rank and file. Already described by Alex Dickson of Radio Clyde as 'classics of our time' and by Bob Shields of the Daily Record as 'a must read for anyone who likes to walk about with a grin on their face', "Even the Lies are True" is sure to arrest you with its irrepressible mirth.
