accompanies this lab exercise. Then, go to the lab table where the male and female skulls have been placed and answer the following questions based on your observations. (Refer to the handout with the highlights for

specific cranial features that is at the lab table) 1. First, note the differences in overall size, shape, and robustness.  
*Lab 11 The Skeletal System Bones Answers*  
The bones that make up the cranium are called the cranial bones. The remainder of the bones in the skull are the facial bones. Figure 6.7 and Figure 6.8 show all the bones of the skull, as they appear from the outside. In Figure 6.9, some of the bones of the hard palate forming the roof of the mouth are visible because the mandible is not present.
