Lexical Phonology and Morphology (RLE Linguistics A: General Linguistics)

This book presents a description of the phonology and morphology of the nominal class system in Fula, a dialect which displays 21 nominal classes. These are identified by suffixes, which can attach to nominal, verbal and adjectival stems. The main objective of this work is to show, through a lexical analysis, that there are only two monomorphemic marker variants, and that the distribution of these variants is predictable.
