"A book not recommended for beginners" Having taken an interest in existentialism and having read a few books on the topic, I thought I could not miss this compilation with Robert C. Solomon, a prolific author in philosophy books and a professor of Philosophy at the University of Texas at Austin, as the author. The introduction was a surprise that it read like a sarcastic and hostile attack to existentialism.  
Nietzsche's Existentialism - Oxford Scholarship  
John Shand enjoys a collection of essays about existentialism. This is aneclectic collection of extracts, as befits the decision of the editor, Robert C. Solomon, not to define 'existentialism' tightly. Existentialism is undoubtedly tricky to define, but Solomon must have had something in mind when he put together this collection other than just following what people habitually call 'existentialism'.
