Also controversial is the mathematics section of the exit level test. This section of the test covers Algebra I, Geometry, and minimal use of basic skills, such as graphs, charts, and grids. The controversy lies in the fact that many students who take higher levels of mathematics seem to fail this test because it does not test their higher-level skills, instead testing skills that they have not recently studied.

The alternate assessments allowed for TAKS are SAT, ACT, TSI, and STAAR. Former TAKS, TAAS, and TEAMS examinees should take only the appropriate part of the alternate assessment he or she needs to fulfill testing graduation requirements. More information about this option can be found in TAC §101.4003.
