The #1 New York Times bestselling memoir of U.S. Navy Seal Chris Kyle, and the source for Clint Eastwood's blockbuster, Academy-Award nominated movie. "An amazingly detailed account of fighting in Iraq--a humanizing, brave story that's extremely readable." —PATRICIA CORNWELL, New York Times Book Review "Jaw-dropping...Undeniably riveting." —RICHARD ROEPER, Chicago Sun-Times From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.

Named one of the Best Romance of 2020 by EW, Washington Post, NPR, and Bookpage! Meet the SOCIETY OF SIRENS—three radical, libertine ladies determined to weaponize their scandalous reputations to fight for justice and the love they deserve... She's a Rakess on a quest for women's rights... Seraphina Arden's passions include equality, amorous affairs, and wild, wine-soaked nights. To raise funds for her cause, she's set to publish explosive memoirs exposing the powerful man who ruined her. Her ideals are her purpose, her friends are her family, and her paramours are forbidden to linger in the morning. He's not looking for a summer lover... Adam Anderson is a wholesome, handsome, widowed Scottish architect, with two young children, a business to protect,

and an aversion to scandal. He could never, ever afford to fall for Seraphina. But her indecent proposal—one month, no strings, no future—proves too tempting for a man who strains to keep his passions buried with the losses of his past. But one night changes everything... What began as a fling soon forces them to confront painful secrets—and yearnings they thought they'd never have again. But when Seraphina discovers Adam's future depends on the man she's about to destroy, she must decide what to protect... her desire for justice, or her heart.

It has never been harder to find good employees. Government handouts and programs, publicly traded behemoths with an insatiable appetite for front-line staff, and a burgeoning gig-economy has made hiring extremely hard for small business owners. The golden question is how do we attract good talent and then retain them long-term? How do I determine rates of compensation for my highest performers that are always demanding raises? How do I scale my business without having to constantly micro-manage my Team when they are in the field working? The answer is Pay-For-Performance (P4P). I know the frustration of growing a home service business and trying to motivate your workforce while balancing the budget with rising costs of doing business. P4P allowed me to grow my lawn care business past 7-figures in annual revenue and now we have dozens of locations around North America. In a sentence, P4P pays employees a percentage of the labor revenue they earn for the business. It is that simple. The rest of the P4P system ensures that quality standards are upheld and that employees don't speed through work or damage Customer property. If you are tired of babysitting employees, tired of offering low-paying, dead-end jobs, tired of seeing employees waste time, money, and their own potential, I encourage you to diligently implement P4P and see it transform your business. What's Inside This manual is your key to success, and the future to the labor industry as we know it. Inside you'll find the tools need to implement P4P successfully in your business. From bringing up the idea to pushing it beyond a simple pay structure, P4P Why Dollars Per Hour Is A Failing Formula will revolutionize how you do business. Conception of P4P What is Pay for Performance Step by Step Implementation Opening the Books Profit Sharing Compete Payroll Breakdown Educational Guide Reference Material [Start Your Own Lawn Care or Landscaping Business](#)

Letter From the Editor, 2012Dear Reader, Thank you for picking up this magazine. Inside you will find a world of wonders. If you are like most people you will flick through and look at the art first. We are proud to feature gallery prints from iconic photographer Kim Weston. The art editor and I met Kim a few years ago at the Henry Miller Library over dinner, and have been trying to get his

beautiful photographs in our magazine ever since. It is thanks to the dogged tenacity of River Tabor that we are able to feature work by an astounding member of the Weston dynasty. Tim Youd did an entire art exhibit based on a passage out of Henry Miller's Tropic of Capricorn. We have a poem by Big Sur visitor and raconteur Richard Brautigan. This poem seems to embody the internal landscape of the author. We are fortunate to have so many talented people in the planisphere that is the Henry Miller Memorial library, and are happy to have so many West Coast writers and artists featured in this issue. The Library is an amazing cultural venue, a local's hang out, a bookstore, a concert venue, and a film theatre, but it is also a fragile watershed. Our commitment to keeping this delicate ecosystem in check is part of why this year we have launched into our capital fundraising campaign, in an effort to retrofit Emil White's little cabin into a place that hosts such acts as Thurston Moore of Sonic Youth. I met Thurston on a damp afternoon at the library. I am not an interviewer per se, but I do love listening to people's stories. Thurston Moore and I talked about poetry and art under a persimmon tree, the interview featured herein is the fruit... The East Coast is always well represented since half of our editors live in Brooklyn, which I like to call the poetry capital of the U.S. of A. We have the wondrous poets Leah Umansky, J. Hope Stein, Joanna Penn Cooper and Angela Wong featured. Enjoy! Maria Garcia Teutsch

[Annabelle the Calico Cosmic Cow](#)

A Painted Pony Creek novel. Sometimes love is just out of reach... Rancher and military veteran J.P. McCall loves simple pleasures. The satisfaction of working his family's land. The freedom to come and go as he pleases. But ever since his two closest friends have married and started families of their own, J.P. realizes what he's been missing. He's known plenty of women, but now he craves finding The One. And then Sara Worth comes crashing back into his life. She's his buddy's sister, the woman who was always out of reach. Single mum Sara Worth has her hands full. After a disastrous early marriage, she is now writing bestselling books by day and caring for her two teenagers by night. That doesn't leave a lot of me time. But when an innocent request for J.P.'s help leads to an unforgettable kiss, she's intrigued — and unsure. Giving love a second chance feels impossible. But when the man from Sara's past resurfaces, threatening everything she holds dear, J.P. will do whatever it takes to protect the woman who's stealing his heart.

Annabelle the Calico Cosmic Cow is the story of a prize Guernsey cow who drives her owner (Farmer Frank) crazy by getting out of the pasture by some mysterious way. Annabelle becomes a calico cow on one of her adventures by getting black paint spilled on herself on one of her outings. These outings continue to be a problem for Farmer Frank's

relationship with Annabelle until the problem comes to a head when the lightning in a big rain storm sets Farmer Franks house on fire. Annabelle becomes cosmic by cranking up her courage and jumping over the reflection of the moon on rising flood waters. She is then able to get out of the pasture to go moo at Farmer Frank's bedroom window and save the day. Because of this incident, the truth about Annabelle's ability to get out of the pasture is revealed. This is also a story that promotes the values of family farm life.

### **Country Born**

What is Cracking the Code to Profit? Cracking the Code to Profit is the complete, start to finish blueprint for building a REAL BUSINESS in the lawn care and landscaping industry. The author, Ryan Sciamanna, shares all his knowledge on how he went from a solo operator to six crews in three years. Who is the book for? Cracking the Code to Profit is for anyone thinking about starting a lawn care business to companies trying to break through the \$200k to \$300k gross revenue barrier. If you would like to, but are not already, making \$100k per year as the owner of your lawn care company, you will benefit from reading this book. Why Ryan wrote the book: In 2016 Ryan narrowed his lawn care companies service offering down to lawn mowing and lawn treatments only. Prior to that, his company was a full-service lawn and landscape service provider offering all of the typical services including mulching, pruning, cleanups, leaf removals, hardscapes, landscape design and installation, and snow removal. He made the change in his business model to increase profit margins and reduce the amount of time required of him as the owner of the business. Naturally, he needed to find referral partners for his lawn care customers because they still had other lawn and landscape needs his company no longer performed. He contacted several other lawn and landscape business owners in his area and told them he wanted to send them referrals for the work his company no longer performed and only asked they don't 'steal' his customers for the services they were still providing. After shooting off the first several referrals, Ryan quickly realized that a lot of these companies needed help and until they improved their business operations, referring his clients to them was only making him look bad! He has since stopped referring work with the exception of a couple companies that proved they would provide his customers quality work at fair prices and actually be reliable. Ryan says, "I think most lawn care business owners started their business just like I did...they enjoyed the work and were good at it, so they said, why not work for myself. In the beginning, it usually goes pretty smooth, but as they add more and more customers and eventually need to hire employees, they get in over their heads. I did the same thing, but quickly educated myself on how to run an actual business and not just be self-employed." He organized all of his knowledge into Cracking the Code to Profit in hopes it will save new business owners years of frustration. Ryan read a similar 'book' before he started his business that his father had bought for him online. It was actually just a word document that someone had written on starting a lawn care business and his dad printed it off for him. It cost his father \$79.95 for that! Ryan still has that 'book' and even though it was overpriced, terrible quality and a lot of the information was not good, he still credits that book towards helping him get his business off the ground. What you can expect from Cracking the Code to Profit - How to Start a Lawn Care Business: The book flows in chronological order from starting your business to your exit strategy. Ryan put every detail he could recall from his own experience. You can see the book chapters in the book preview. After each chapter, action steps are included so you know exactly what you need to do. At the end of the book, you will find the resource section for continued learning and execution. You can expect to have a much better understanding of how to start and grow your lawn care business is a healthy, profitable way. Ryan's contact info is also included in the book. He would love to hear from you after you finish it!

This book presents the proceedings of the 19th International Conference on Interactive Collaborative Learning, held 21-23 September 2016 at Clayton Hotel in Belfast, UK. We are currently witnessing a significant transformation in the development of education. The impact of globalisation on all areas of human life, the exponential acceleration of developments in both technology and the global markets, and the growing need for flexibility and agility are essential and challenging elements of this process that have to be addressed in general, but especially in the context of engineering education. To face these topical and very real challenges, higher education is called upon to find innovative responses. Since being founded in 1998,

this conference has consistently been devoted to finding new approaches to learning, with a focus on collaborative learning. Today the ICL conferences have established themselves as a vital forum for the exchange of information on key trends and findings, and of practical lessons learned while developing and testing elements of new technologies and pedagogies in learning.
