Lawn Care for Your Home Council For Exceptional Children

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Technical Reference Handbook Pebble

Americans today are working harder, working longer and yet for most of us, in this time of ruthless downsizing and political cronyism, job security, a decent standard of living and a comfortable retirement are becoming harder and harder to find. In this brilliantly funny and right-on-target diatribe, irreverent everyman Michael Moore gives his own bold views on who's behind the fading of the American dream. Whether issuing Corporate Crook trading cards, organizing a Rodney King Commemorative Riot, sending a donation to Pat Buchanan from the John Wayne Gacy fan club (which was accepted) or trying to commit former right-wing congressman Bob Dornan to a mental hospital, the in-your-face host of TV Nation and director/star of *Roger & Me* combines an expansive wit with biting social commentary to make you think and laugh at the same time. In hardcover, *Downsize This!* stormed the bestseller lists of the New York Times, Wall Street Journal, Washington Post, San Francisco Chronicle and others. Given Michael Moore's enormous -- and growing -- constituency, this trade paperback edition brings his unique perspective on the nation to an even greater audience.

Using Lady Morgan's *The Wild Irish Girl* as his point of departure, Thomas J. Tracy argues that nineteenth-century debates over what constitutes British national identity often revolved around representations of Irishness, especially Irish womanhood. He maps the genealogy of this development in fiction, political discourse, and the popular press, from Edgeworth's *Castle Rackrent* through Trollope's Irish novels, focusing on the pivotal period from 1806 through the 1870s.
