Home Prices Are Too High
Buying a home is the

pinnacle of adulthood, but as we all aware, home ownership isn't exactly easy to navigate, especially for younger folks. Unless you're completely debt-free, get help from parents, and disciplined enough to live below your means to save money, buying your first home in the future can seem more like a fantasy than an actual possibility. In "The First Time Home Buying Guide", we will be mainly focus on why and how to save up our money to have the down payment for our

first home purchase, so we can be prepared when there is a home buying opportunity in the future. What is a Downpayment? A down payment is a big sum of money you need when buying a home. You may borrow money from the bank in the form of a home loan or mortgage, but a portion of the total cost must come directly from you. The down payment acts as an insurance of sorts for your lender. It is Not just About HOW to Save, But WHY You Should Save As we all know, there's a

correlation between inflation and home prices. If we don't save up now, the global home price will slowly keep going up. Now is the time to be prepared and save up, so when there's home price correction underway, you will have the purchasing power to own a home. The truth is that we all know how to save, but most of us are not aware of the reason why we need to save and that becomes problematic. In this book, we will go in depth on this topic. We will also be sharing unique ways to save

up for a down payment and ways to save a lot faster than an average person. This is What You Are About to Discover.. ? Why is Saving so Important in General? ? The 2016 Camaro is a sixth generation vehicle that is manufactured by Chevrolet. The vehicle was first unveiled in May 2015 which saw the car being lighter than its predecessor. General Motors, the parent company of

Chevrolet claims that 70% of the components of the car are unique to it. The vehicle is expected to be on sale early 2016 with hardtops and convertibles being a part of the lineup. In some spaces this vehicle is referred to as a muscle car and was originally designed to compete with the Ford Mustang. The release of the sixth generation version coincides with the

50th birthday of the vehicle and will be in LT and SS models. The early productions of the vehicle will see the engine coming in three different versions, the 2.0 liter turbo charged 275 hp, a 3.6 liter V6 335 hp or the SS model which will feature a 6.2 liter V8 455 hp. The transmissions will either be a six speed manual or eight speed automatic.

Illustrated Triumph Buyer's Guide
Washington, DC :

The Triumph TR2 and TR3 were the heralds of a long-running line of Triumph Sports Cars, culminating in the futuristic TR7 of the 1970s. They were truly sporting cars, suitable for competition and enjoyable fast road motoring. The quintessential British Sports Car of the 1950s, more than 83,000 side-

screen TRs were produced, which contributed greatly to British manufacturing prestige - and the postwar economy - with approximately 90% being exported, principally to the US and Canada. Triumph TR2, & TR3 - All models (including 3A & 3B) 1953 to 1962 is written with the sole aim of giving prospective buyers

key knowledge to choose the best example available according to budget. It covers models TR2, TR3, TR3A, and the rare TR3B, produced between 1953 and 1962. All aspects of the car are examined in detail and with many illustrations to back up the text. There is also advice on such matters as non-

period modifications. Since the 1980s, the TR models have become finite in number, much cherished by owners, and increased in value, making it very important to know and understand the points to look for and the potential pitfalls of choosing a rogue example. Having bought an imported

TR3a, restoring it and preparing it for racing, the author is also a TR2/TR3 consultant for Club Triumph, and a regular contributor to its magazine, making him well-placed to guide you through finding and choosing the best model for you.
