architects and contractors, the law of contract is the most important one and, from preparation of technical documents to its execution and in the determination of disputes, the engineer or architect must have relevant knowledge. This book acts as a practical guide to building and

engineering contracts. All points are explained with illustrations gathered from decided court cases. This book covers the substantive law of contract applicable to building and engineering contracts with updated noteworthy judgments. FIDIC conditions are mentioned at appropriate

places with a global focus. Key Features: Guide for a full and thorough understanding of the contractual undertakings of the civil engineering industry, primarily in India. Discusses specific conditions which are fertile sources of disputes, referring to and commenting upon the FIDIC

of the National Labor Relations Board Professional resume and cover letter writers reveal their inside secrets for creating phenomenal cover letters that get attention and land interviews. Features more than 150 sample cover letters written for all types of job seekers, including the Before-and-After transformations that can make boring letters fabulous.

### American Machinist

TAA had almost a fifty-year record of ground-breaking aviation throughout Australia. Along with Qantas, the airline helped Australia overcome the "tyranny of distance", and made a sustained contribution to

aviation in its early years. This book tells the inside story of the airline's internal struggle, and relations with governments.
