Ninian Smart came to public prominence as the founding Professor of the first British university Department of Religious Studies in the late 1960s. His pioneering views on education in religion proved hugely influential at all levels, from primary schools to academic teaching and research. An unending string of publications, many of them accessible to the general public, sustained a reputation that became worldwide. Here, for the first time, a selection of Ninian Smart's wide-ranging writings is organised systematically under a set of categories which both comprehend and also illuminate his varied output over a career spanning half a century. The editor, John Shepherd, was Principal Lecturer in Religion and Philosophy at the University of Cumbria. He first met Smart as a postgraduate student, and recently helped establish the

Think World Religions

Ashgate Publishing, Ltd.

Is Confucianism a religion?

If so, why do most Chinese

think it isn't? From ancient

Confucian temples, to

nineteenth-century archives,

to the testimony of people

interviewed by the author

throughout China over a

period of more than a

decade, this book traces the

birth and growth of the idea

of Confucianism as a world religion. The book begins at

Oxford, in the late

nineteenth century, when

Friedrich Max Müller and

James Legge classified

Confucianism as a world

religion in the new discourse

of "world religions" and the

emerging discipline of

comparative religion. Anna

Sun shows how that decisive

moment continues to

influence the understanding

of Confucianism in the

contemporary world, not

only in the West but also in

China, where the politics of

Confucianism has become

important to the present

regime in a time of

transition. Contested

histories of Confucianism are

vital signs of social and

political change. Sun also

examines the revival of

Confucianism in

contemporary China and the

social significance of the ritual practice of Confucian temples. While the Chinese government turns to Confucianism to justify its political agenda, Confucian activists have started a movement to turn Confucianism into a religion. Confucianism as a world religion might have begun as a scholarly construction, but are we witnessing its transformation into a social and political reality? With historical analysis, extensive research, and thoughtful reflection, *Confucianism as a World Religion* will engage all those interested in religion and global politics at the beginning of the Chinese century.

This unique volume accomplishes two goals: it connects today's religions to their classical beliefs and practices and focuses on how these religions have both radically changed the modern world and been changed by it.
