You've heard about "flipping your classroom"—now find out how to do it! Introducing a new way to think about higher education, learning, and technology that prioritizes the benefits of the human dimension. José Bowen recognizes that technology is profoundly changing education and that if students are going to continue to pay enormous sums for campus classes, colleges will need to provide more than what can be found online and maximize "naked" face-to-face contact with faculty. Here, he illustrates how technology is most powerfully used outside the classroom, and, when used effectively, how it can ensure that students arrive to class more prepared for meaningful interaction with faculty. Bowen offers practical advice for faculty and administrators on how to engage students with new technology while restructuring classes into more active learning environments.

On the surface, 17-year-old Alex has it made; she is beautiful and smart. Plus, she's best friends with M., the absolute most popular girl in school. Feeling bored with their fancy Orange County suburban town, Alex and M. decide to check out L.A.'s glitzy nightlife scene. Pretending to be 19, Alex and M. meet Trevor and Connor, two rich older guys. At first, Alex can't believe her luck—she gets to hang out at hip Hollywood house parties and downtown L.A. clubs. These weekend trips into the city become the perfect distraction for Alex, who is secretly struggling with her failing senior year grades, her absentee father, and her clueless mom. But, after the initial fun wears off for Alex, she is forced to reevaluate her friendship with M., who is hiding some secrets beneath her perfect Burberry-clad exterior... in Alyson Noël's *Faking 19*.

New York Times Bestseller Rosie may seem quiet during the day, but at night she's a brilliant inventor of gizmos and gadgets who dreams of becoming a great engineer. When her great-great-aunt Rose (Rosie the Riveter) comes for a visit and mentions her one unfinished goal—to fly—Rosie sets to work building a contraption to make her aunt's dream come true. But when her contraption doesn't fly but rather hovers for a moment and then crashes, Rosie deems the invention a failure. On the contrary, Aunt Rose insists that Rosie's contraption was a raging success: you can only truly fail, she explains, if you quit. From the powerhouse author-illustrator team of Iggy Peck, Architect comes Rosie Revere, Engineer, another charming, witty picture book about believing in yourself and pursuing your passion. *Ada Twist, Scientist*, the companion picture book featuring the next kid from Iggy Peck's class, is available in September 2016.!--?xml:namespace prefix = o ns = "urn:schemas-microsoft-com:office:office" /-- Praise for Rosie Revere, Engineer "Comically detailed mixed-media illustrations that keep the mood light and emphasize Rosie's creativity at every turn."—Publishers Weekly "The detritus of Rosie's collections is fascinating, from broken dolls and stuffed animals to nails, tools, pencils, old lamps and possibly an erector set. And cheddar-cheese spray."—Kirkus Reviews "This celebration of creativity and perseverance is told through rhyming text, which gives momentum and steady pacing to a story, consistent with the celebration of its heroine, Rosie. She's an imaginative thinker who hides her light under a bushel (well, really, the bed) after being laughed at for one of her inventions."—Booklist Award 2013 Parents' Choice Award - GOLD 2014 Amelia Bloomer Project List Read Boston's Best Read Aloud Book

Meet Izzy Gizmo – a fabulously feisty new character from Pip Jones (Squishy McFluff; Daddy's Sandwich) brought brilliantly to life with exuberant and detailed illustrations from the best-selling illustrator of *The Detective Dog*, Sara Ogilvie. Izzy Gizmo, a girl who LOVED to invent, carried her tool bag wherever she went in case she discovered a thing to be mended, or a gadget to tweak to make to make it more splendid. Isabelle Gizmo just loves to invent, but her inventions never seem to work the way she wants them to. And that makes her really CROSS! When she finds a crow with a broken wing she just has to help. But will she be able to put her frustrations to one side and help her new friend to fly again? Shortlisted for the Sainsbury's

Twirling Book Princess blog 'This exuberantly riotous story... blends the fun of rhyme with the touching friendship between a charismatic crow and a never-say-die young inventor' Lancashire Evening Post 'A lovely story of ingenuity and determination' Parents in Touch 'I doubt many will fail to fall for Izzy and her mechanical mind. Pip Jones' rhyming narrative is a cracker to read aloud and Sara Ogilvie's imagination must be almost as fertile as young Izzy's... A real riot.' Red Reading Hub blog 'Jones's loping, engaging rhymes and Ogilvie's vivacious images evoke both inspiration and frustration' The Guardian **Fifth Edition, One Volume, Seagull** John Wiley & Sons Global warming continues to gain importance on the international agenda and calls for action are heightening. Yet, there is still controversy over what must be done and what is needed to proceed. *Policy Implications of Greenhouse Warming* describes the information necessary to make decisions about global warming resulting from atmospheric releases of radiatively active trace gases. The conclusions and recommendations include some unexpected results. The distinguished authoring committee provides specific advice for U.S. policy and addresses the need for an international response to potential greenhouse warming. It offers a realistic view of gaps in the scientific understanding of greenhouse warming and how much effort and expense might be required to produce definitive answers. The book presents methods for assessing options to reduce emissions of greenhouse gases into the atmosphere, offset emissions, and assist humans and unmanaged systems of plants and animals to adjust to the consequences of global warming.

A gentle reminder, for the days you feel light in this world, and for the days in which the sun rises a little slower. A gentle reminder for when your heart is full of hope, and for when you are learning how to heal it. A gentle reminder for when you finally begin to trust in the goodness, and for when you need the kind of words that hug your broken pieces back together. A gentle reminder for when growth hangs heavy in the air, for when you need to tuck your strength into your bones just to make it to tomorrow. A gentle reminder for when you are balancing the messiness, and the beauty, of what it means to be human, when you are teaching yourself that it is okay to be both happy and sad, that you are real, not perfect. A gentle reminder for when you seek the words you needed when you were younger. A gentle reminder for when you need to hear that you deserve to be loved the way you love others. A gentle reminder for when you need to recognize that you are not your past, that you are not your faults. A gentle reminder for when you need to believe in staying soft, in continuing to be the kind of person who cares. A gentle reminder for when you need to believe in loving deeply in a world that sometimes fails to do so. A gentle reminder to keep going. A gentle reminder to hope--

RNA and Protein Synthesis is a compendium of articles dealing with the assay, characterization, isolation, or purification of various organelles, enzymes, nucleic acids, translational factors, and other components or reactions involved in protein synthesis. One paper describes the preparatory scale methods for the reversed-phase chromatography systems for transfer ribonucleic acids. Another paper discusses the determination of adenosine- and aminoacyl adenosine-terminated sRNA chains by ion-exclusion chromatography. One paper notes that the problems involved in preparing acetylaminoacyl-tRNA are similar to those found in peptidyl-tRNA synthesis, in particular, to the lability of the ester bond between the amino acid and the tRNA. Another paper explains a new method that will attach fluorescent dyes to cytidine residues in tRNA; it also notes the possible use of N-hydroxysuccinimide esters of dansylglycine and N-methylantranilic acid in the described method. One paper explains the use of membrane filtration in the determination of apparent association constants for ribosomal protein-RNS complex formation. This collection is valuable to bio-chemists, cellular biologists, micro-biologists, developmental biologists, and investigators working with enzymes.

The permanent presence of Islam and Muslims is a comparatively recent phenomenon in most countries of the European Union. Over the last few decades many initiatives have been launched by Muslim communities in the European Union to create infrastructural provisions for their religious life, within the existing legal and social frameworks. In fact, all countries of the European Union share the principles of religious freedom and non-discrimination in their respective Constitutions. However, the precise way in which these principles are interpreted and applied to Islam depends largely on the historical traditions concerning the relation between State and Religion, which differ from one country to another. These differences are reflected in recent developments in the communication between the States and their Muslim communities, both at national, regional and municipal levels. They are also reflected in recent developments in legislation and jurisprudence concerning the most essential Islamic core-values, such as dietary laws, the precepts on modest dress, Islamic burial practices and the possibilities to found Islamic cemeteries, as well as the observance of Friday prayers and annual holidays. Looking at the legal position of Islam in the countries of the European Union, the authors of this volume discuss the challenges posed by the presence of Islam to the Western European system of relationships between law and religion. They argue, that these challenges necessitate reforms within the relevant European legislation, but differ as to their precise nature. They also discuss the difficulties of this task, as these adjustments will alter a longstanding balance of rights and privileges recognised by different religious denominations. Legal reforms, however, are not sufficient. The creation of a truly multicultural Europe also necessitates fighting against the negative image of Islam and Muslims (anti-Muslimism or Islamophobia) prevailing in most of its member states.

A Hollywood A-list mega-star, on the run from his latest scandal and with everything to lose. A chance encounter that leads to an unlikely arrangement and epic love affair that will change them both forever. When his co-star and real-life girlfriend is caught cheating on him by the tabloids, A-list hottie, Jack Eversea, finds himself in sleepy Butler Cove, South Carolina. Jack hopes the sultry southern heat in this tiny coastal Lowcountry town will hide him not only from the tabloids and his cheating girlfriend, but his increasingly vapid life and the people who run it. He doesn't count on meeting Keri Ann Butler. Keri Ann has relied on herself so long, dealing with her family's death and the responsibilities of keeping up her family's historic mansion, that boys and certainly the meager offering of eligible boys in Butler Cove, have never figured into her equation. But fate has other plans. Suddenly face to face with the man who played the movie role of her favorite fictional character, Jack has Keri Ann yearning for everything she has previously avoided ... and Jack must decide whether this funny, sassy girl is worth changing his life for, before his mistakes catch up to him.
