The Only Leadership Book You'll Ever Need John Wiley & Sons Making Sense of Leadership identifies the five key roles used by effective leaders. A practical, accessible and solution-focused book, it helps entrepreneurs, managers and leaders develop their leadership skills. The authors examine successful leaders to determine the type of leadership roles which succeed. This allows them to present five distinct roles of leadership, which are used to promote positive change and innovation. The authors encourage the reader to play with these, recognizing and taking on those elements which most appropriately suit their situation. Discovering these roles offers an important guide to the new leader, in order for them to shape their

own leadership approach. It also provides interesting challenges to the existing leader who wants to refresh their stance in order to tackle a new situation. The book is supported by exercises for both individuals and groups, so that the text can also be used as a learning and development resource and for team facilitation and one-to-one coaching. Cauthen III, assistant dean of students, The University of Georgia [Compassionate Leadership](#) Human Kinetics Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative

carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results,

proving that it's never too early to teach someone how to live well.
